Reports

- 109 Comparative Financial Statements

For more than half a century, we have witnessed our well-established 100-year-old Republic grow stronger. We embarked on our journey 56 years ago to support bright students who need financial support. From that first moment, our actions have been guided by the values of our Republic, and the principles and reforms of our great leader Mustafa Kemal Atatürk.

Even as we celebrated this momentous year for our nation, we grieved deeply for those who were lost and injured in the February 6 earthquake. From the first hours, we began efforts to heal the wounds of this disaster, which affected the education of one out of every five of our country's children at the primary education level. In addition to our existing benefactors, new ones joined us, and we united as a large family embracing our entire nation. We continue to prevail through these challenging times with hope, solidarity, and cooperation as, together, we heal our wounds.

On the 100th anniversary of our Republic, we bear the responsibility of maintaining the legacy of our founding father and carrying our country to a brighter future. We intend to provide equal educational opportunities for many centuries to come, a testament to the boundless trust of our esteemed benefactors in education and the youth of this country.

May they study, may they be the future of the Republic

As one of the pioneering non-governmental organizations in our country, we tirelessly promote the importance of equal opportunities in education and stand as the voice of the future. We acknowledge that only a qualified education can lead to a brighter future in our Republic's next century. Following the path set by our Founding Leader Atatürk, we will continue to protect and support our bright-minded young people with the same determination.

“Republic Scholarship” support

~TL 14 Million

Education should not be halted

Thousands of university students are forced to quit their studies each year due to an inability to meet their basic needs. Our scholarship interviews reveal that three out of every five students face the risk of quitting their education. Following the February 6 earthquakes in 2023, we received more than 107 thousand scholarship applications. We acknowledge the difficulties faced by all students in our country because of this catastrophe and we continue to support our young people by ensuring that their education continues under any circumstance.

Total number of domestic scholarships in 56 years
284 thousand

Total applications for scholarships in 2023
107 thousand+

Education is the strongest foundation

The schools we will build in the disaster region will help us to rebuild dreams together. In 2023, we opened the Eczacıbaşı-TEV Primary School in Adıyaman's Tekpınar village. The construction of five more schools is ongoing in the disaster region within the scope of projects we are realizing with our corporate supporters.

6 schools
in the disaster area

May our youth be safe and at ease

We support successful young people who have limited financial means in every aspect and at every stage of their education. We impact the lives of young people by means of our dormitories as well as scholarships, and we work tirelessly to ensure that students receive a safe and comfortable education. In addition to our three existing dormitories, we have signed protocols with the Ankara Yenimahalle and Izmir Balçova municipalities to open two more dormitories. The construction of these residences is proceeding at a brisk pace and they are expected to be operational for the 2024-2025 academic year.

OUR INTEGRATED ANNUAL REPORT

We are pleased to introduce our activities in a transparent, accurate and consistent manner based on integrated thinking and reporting.

Published to share the outputs of TEV's value-oriented activities and the organization's goals and strategies, this second Integrated Annual Report was prepared in accordance with the key concepts and principles of the International Integrated Reporting Framework established by the International Integrated Reporting Council (IIRC).

Focusing on the on the philosophy of integrated thinking in integrated reporting, we present our activities in a transparent, accurate and consistent manner. As an institution working steadily and tirelessly for the last 56 years towards providing equal educational opportunities in Türkiye, we move forward with the support of our benefactors, as well as our grantees who have recently joined the TEV family.

The content of this report is based on a detailed assessment of our prioritized issues for 2023, and the work we carry out in terms of these issues. The report also includes the number of grantees by academic year and financial information by calendar year.

Through the data and information provided in the report, we submit to our stakeholders TEV's activities in 2023, including our plans and objectives, the value we created by way of our business model, and our governance structure, as well as the Foundation's financial statements, which were independently audited.

MESSAGE FROM THE CHAIRMAN OF THE BOARD OF TRUSTEES

Since our foundation, we have shaped our activities to ensure that young people follow the path set by Atatürk, that they are raised in an exemplary manner, and that they protect the secular Republic and Atatürk's revolutions.

Esteemed Members of our Turkish Education Foundation Family,

The Turkish Education Foundation (TEV), established 56 years ago by our founder, the late Vehbi Koç, together with 205 businesspeople, academics and intellectuals, has closed a remarkable year dedicated to providing young people with access to educational opportunities and to improving the quality of education. With determination and a sense of responsibility, our Foundation has maintained its efforts to ensure that the dream of our youth – to attain a good education – is fulfilled. Our Foundation has upheld its commitment to ensure that quality education is not a distant dream but rather a tangible reality.

In 2023, we proudly celebrated the centennial of our Republic. To safeguard the Republic, the most precious legacy of our great leader Atatürk, and to ensure its development, we encourage our youth to follow the principles of wisdom, science and free thinking more decisively than ever. Since its foundation, TEV has worked with steadfast and growing determination and enthusiasm to ensure that young people follow the path set by Atatürk, that they are well-educated, and that they protect the secular Republic and Atatürk's revolutions.

As of the end of 2023, the number of domestic education scholarships we have provided throughout our 56-year journey contributing to equal opportunities in education exceeded 284 thousand. Today, we are honored and delighted to have created a very extended family that encompasses our students, benefactors, and alumni scholarship holders, who consistently stand by us without forgetting our Foundation's support for them, as well as our supporters and social stakeholders.

Following the February 6 earthquakes – and their impact, which will remain forever in our collective memory – TEV supported young people affected by the disaster, with an exceptional sense of dedication and mobilization. Our Foundation implemented numerous projects to provide long-term and sustainable support to students who are at risk of quitting their education.

In the upcoming period, we will continue to amplify our efforts, in line with our goal to provide the equal opportunities and educational support that contributes to raising our youth to become self-confident, rational and inquiring individuals dedicated to the principles and values of the Republic.

I would like to extend my appreciation to our esteemed Trustees, our Board of Directors and our donors, who have sustained our Foundation to this day, and especially I thank our founders. I also express my gratitude and mercy to our founders, directors and donors who have passed away.

On behalf of the TEV family, I would like to convey my sincere thanks, respect and love to all our living benefactors, to all those who have contributed to the Foundation, and to each and every one of our students.

Ömer M. KOÇ
Chairman of the Board of Trustees

“

Following the February 6 earthquakes – and their impact, which will remain forever in our collective memory – TEV supported young people affected by the disaster, with an exceptional sense of dedication and mobilization.

MESSAGE FROM THE CHAIRMAN OF THE BOARD OF DIRECTORS

As a foundation that has supported education and enlightened the lives of hundreds of thousands of children and young people across Türkiye, we pledge that we will continue to take care of our children and young people in this second century of our Republic.

Esteemed Members of our Turkish Education Foundation Family,

We leave behind a year in which we are honored and delighted to celebrate the 100th anniversary of our Republic, a republic founded by the Great Leader Mustafa Kemal Atatürk with unparalleled courage and a vision that transcends the ages. In 2023, the Turkish Education Foundation, empowered by its 56-year history, amplified its efforts to ensure that our country's youth - who are charged with protecting the values of our Republic - have equal opportunity to access quality education. Following the path of our forefather, who stated that "All my hope lies in the youth," we have sustained our efforts to raise our youth as individuals with a "free mind, free conscience and free wisdom" who adopt the supremacy of reason and science, by declaring "May they study, may they be the future of the Republic."

As a foundation that has supported education and enlightened the lives of hundreds of thousands of children and young people across Türkiye, we pledge that we will continue to take care of our children and young people in this second century of our Republic.

However, at the beginning of the year, we suffered one of the biggest disasters that our country and our nation has ever experienced. As TEV, we put our minds and hearts into providing all kinds of material and spiritual support to the young people affected by this great disaster, striving to help them look again to the future with hope, and we continue to work towards this aim.

In this regard, in addition to the scholarships we provided to help students directly affected by the disaster continue their education, we also contributed in every other way available to us, such as aiding in the construction of schools in the earthquake region, and supporting distance learning. By transforming our collaborations into communication campaigns that are highly visible in the national media, we further encouraged social sensitivity towards these young people in the region, keeping them on the agenda. Guided by our deep-rooted values, healing the wounds of our young people with kindness will be our priority in the upcoming period.

Esteemed Supporters of TEV,

As an exemplary non-governmental organization that, thanks to its successful efforts, has earned a notable reputation among communities and noteworthy trust among all its stakeholders, TEV conducted significant initiatives for the future in 2023.

During the reporting period, we raised the number of grantees while improving our capabilities and capacity to generate sustainable value for society. At TEV, our efforts in many areas - ranging from corporate governance to digitalization, and from fund-raising to stakeholder communication - resulted in numerous other concrete outputs during the period.

In the awareness that strong corporate governance is key to ensuring the sustainability of our efforts for society, we are implementing models in this area. In 2023, we elevated our Corporate Governance Rating to 9.72, once again confirming the importance we attribute to corporate governance principles.

The projects we developed for the solid future of our country, and our communication efforts to convey our messages to society in the most effective way possible, have garnered significant accolades during the year.

Following our decision to reopen a preparatory class, TEVİTÖL welcomed 82 more students for the 2023-24 academic year. In 2023, the average scholarship rate rose to 65% at TEVİTÖL, where 99 out of 279 students received a scholarship of 90% or more. As a result of the reintroduction of a preparatory class to our school, in which we support more families in need with higher scholarship rates, and with the positive impact of those increased scholarship rates, the percentage of students enrolled in the High School Entrance Examination in 2023 also improved significantly compared to the previous year. In 2023, TEVİTÖL students continued to make us proud with their academic, social and cultural achievements, as well as the awards they received.

In the past year, TEVİTÖL's physics, chemistry and biology laboratories were renovated and an Advisory Board, chaired by Prof. Üstün Ergüder, was established, further improving the quality of education for Türkiye's bright youth.

ON THE
CENTENNIAL OF
OUR REPUBLIC, TEV
CELEBRATES ITS 56TH
ANNIVERSARY.

The projects we created for the solid future of our country and the communication activities to effectively convey these messages to society garnered significant awards during the year.

For 56 years, as a foundation contributing to Türkiye's development in education, a highly vital field, we are not only proud of our achievements but we also face the future with confidence and determination. As TEV, we bear the responsibility of raising the children and young people who will carry our Republic - the most important legacy of our Atatürk - into the future as individuals devoted to his principles and reforms, who accept science as a guide, and who contribute to society.

We recognize our benefactors as the main reason for our existence and who accord us the greatest support in this endeavor and I will take this opportunity to express my utmost gratitude to all the benefactors of our Foundation. I also commemorate our deceased benefactors with great respect.

Members of our Board of Trustees and Board of Directors, our benefactors, the General Manager of our Foundation, our colleagues, and all our stakeholders: Thank you for your endless support and your continued confidence in us.

Respectfully,

Prof. Dr. Mehmet Şükrü TEKBAŞ
Chairman of the Board

MESSAGE FROM THE GENERAL MANAGER

As TEV, we have been working for 56 years to ensure access to quality education, a fundamental human right and a key to sustainable development.

Esteemed TEV Members and Education Fellows,

As TEV, we have been working for 56 years to ensure access to quality education, one of the most fundamental human rights and a key to sustainable development. In 2023, with the awareness and responsibility of contributing to the modern future of our country, we carried out projects that touched the lives of our youth.

Since our establishment, we have built 32 educational facilities across Türkiye. Providing 284 thousand scholarships in Türkiye, we also supported nearly 2,300 young people in their higher education and doctoral studies abroad. We support the housing needs of grantees by means of our girls' dormitories in Ankara, Izmir and Trabzon. Through our 13 TEV branches in 13 provinces, we maintain fund-raising efforts, address the needs of our will and grant benefactors, and support our grantees in every aspect.

We took action to provide long-term and sustainable support to young people who have been profoundly affected by disasters.

Although 2023 was an immensely challenging year, the sorrow caused by the February 6 earthquakes again demonstrated the importance of solidarity and civil society.

While one out of every five students in primary education was affected by this tragedy we, as the Foundation, utilized resources for our grantees who were victims of the earthquakes and for all young people affected by the disaster.

In this regard, we provided an additional TL 3 million in housing scholarship support to 2,525 grantees residing or who have families residing in the provinces affected by the earthquake. In addition, we provided approximately TL 2 million to 1,300 students studying in the disaster area and/or whose families are in this region and who did not qualify for scholarships in the 2022-2023 academic year. We provided computer support to approximately 1,000 young people who required technology access after the transition to distance education due to the earthquakes. We announced applications for four-month scholarships for newly admitted university students affected by the earthquake in the first degree. We provided scholarships to 1,275 students whose family members were deceased or injured, or whose homes were destroyed. We also started to build schools in Adıyaman and Hatay through our School Bell Fund and began rebuilding dreams together.

We established scholarship funds, including Don't Give Up on School, On the Way to School, and We Will Return, for young people who are at risk of giving up on their education due to the earthquakes. We established important collaborations

with numerous education-friendly organizations to support our youth, especially via scholarship funds; and we worked with a wide range of media outlets in our communication activities, to draw public attention to the earthquake-affected region. We went beyond providing mere financial support to our students and strived to understand their needs for the future and support their emotional well-being and fulfillment. To solidify our impact on the lives of students, we prioritize collaborations with Türkiye's leading companies and brands to produce strong outputs that include mentorships, internships and job opportunities.

In the 100th anniversary of our Republic, we worked with greater responsibility for a brighter tomorrow.

In 2023, as our Republic - the indestructible foundation of our national unity and solidarity - turns 100 years old, we elevated our efforts to ensure that the spirit, principles and values of the Republic will live forever by following in the footsteps of our Great Leader Mustafa Kemal Atatürk.

Together with our esteemed donors and grantees, we celebrated the Republic's centennial at a dedicated event. We prepared a special campaign movie for this momentous year, calling for support on behalf of our youth and our future with the slogan "May they study, may they be the future of the Republic."

We recognize that the path to a brighter future in the next century of our Republic lies in growing the value created by our women. We accord the utmost importance to our female students and, to ensure that these students are provided with the means to evolve into strong individuals, supporting their education is one of our top priorities. In 2023, our National Athlete Şahika Ercümen broke the world record in the non-pallet variable weight category in Yayladağı, Hatay, in a demonstration intended to support the education of female students, especially those affected by the earthquake. By way of the campaign titled "Breathe Life into Hatay," we aimed to provide assistance to 100 young women receiving training in sports.

We celebrated this special year with our executives and TEV stakeholders at an exciting event. Our benefactors had the opportunity to listen in person to the inspiring stories of our grantees and alumni and, additionally, Erol Evgin, the maestro of Turkish pop music, presented us with an unforgettable night of his songs. During the year, we also organized a special concert for the 100th anniversary of our Republic, hosted by our Izmir Branch. The event was opened by the TEV Volunteers Support for Education

“

We will continue to support our youth, who are the guardians of our future, with a unique and holistic approach throughout their educational journey, so that they can have more confidence in the future.

MESSAGE FROM THE GENERAL MANAGER

So far, we have provided approximately 284 thousand scholarships in Türkiye and supported nearly 2,300 young people in their graduate studies abroad.

Choir and followed by a performance from Karsu, the renowned pianist, composer, songwriter and singer. All contributions to the event were donated to the Foundation's efforts to inspire hope for the future of youth.

As part of TEV's 56th anniversary, we held our Grantees Meeting with the participation of grantees, alumni and TEV volunteer artists. Organized to gather our young people, create interaction, and enable them to get to know our Foundation and its activities better, this meeting was also streamed via YouTube and shared with all our grantees.

We continue to expand the scope of the Municipalities Supporting Education project; first launched on the Anatolian side of Istanbul to support youth struggling to continue their education, the project has quickly expanded beyond Istanbul. Within its scope, we signed a protocol with the Ankara Metropolitan Municipality in 2023 and thus our capital city joined this civil support movement for young people.

The Turkish Education Foundation İnanç Türkeş Private High School (TEVİTÖL) has completed three decades of supporting bright children by offering them opportunities to realize themselves and achieve their dreams. Our school continues to raise scientifically, academically, and culturally knowledgeable, pioneering individuals who are likely to create

an impact on society, thanks to its focused curriculum designed for students with high potential, as well as its multifaceted extracurricular activities and student clubs. In 2023, TEVİTÖL students once again honored us with their outstanding achievements in Türkiye and abroad.

2023 will always be a special year in the corporate history of our Foundation.

For more than half a century, we have been committed to equal opportunity in education. In addition, we see it as our social responsibility to conduct a corporate governance process following international standards. In 2023, Kobirate International Credit Rating and Corporate Governance Services raised TEV's Corporate Governance Compliance Rating to 9.72, which is the clearest indicator that our Foundation is being managed with a fair, transparent, accountable and responsible approach towards all its stakeholders. Last year, we also began to share the results of our value creation journey in a multidimensional way through our first Integrated Annual Report.

We have been witnessing a major technological transformation around digitalization in all areas of life. As TEV, we seek to benefit from the opportunities offered by digitalization throughout our value chain and to lead this transformation process, which is also a cultural transition, in our field.

In 2023, we continued to be recognized by prominent organizations for our achievements in line with our ideal of a modern country. We received a total of 14 awards at the MediaCat Felis, Brandverse, and Effie Awards for our communication activities aimed at elevating the visibility of projects such as "Whose Backpack Is This?" "Volume Up," and "May They Study, May They be the Future of the Republic."

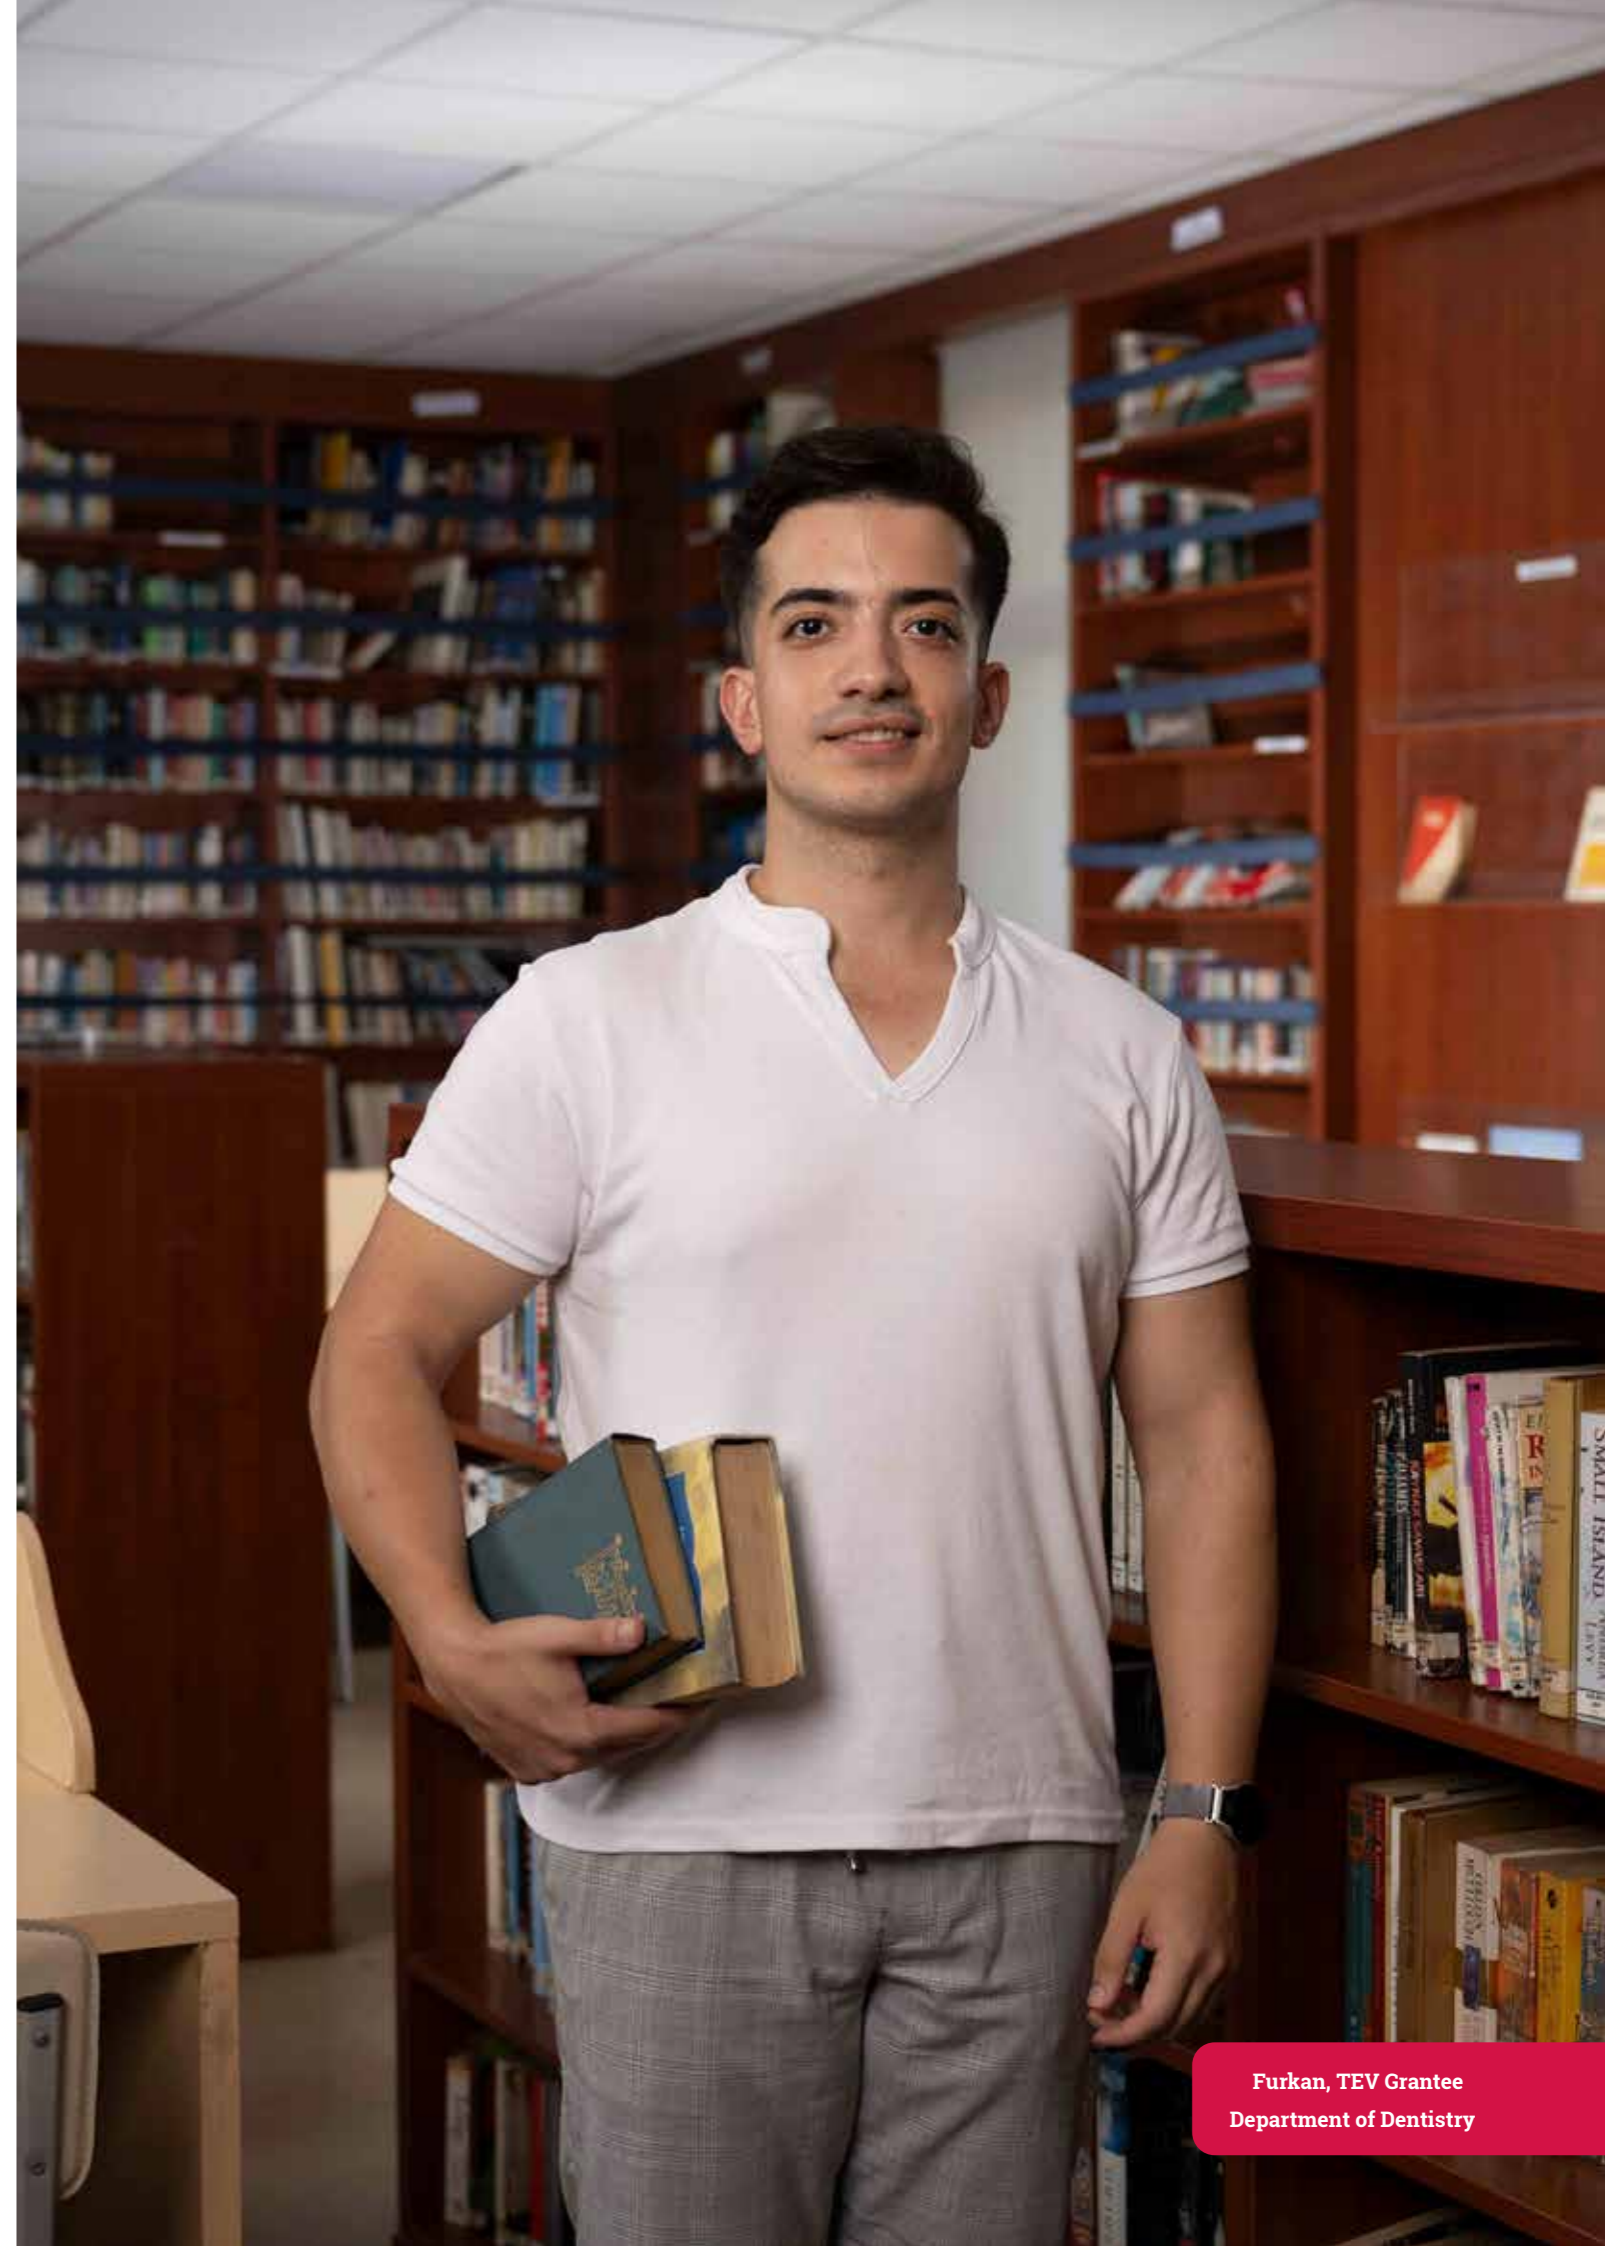

We will continue to be the light of our students' lives.

We will continue to support our youth, who are the guardians of our future, with a unique and holistic approach throughout their educational journey, so that they can have more confidence in the future. Our benefactors, who enable us to impact the lives of more and more young people each year, and our colleagues, many of whom are TEV scholarship alumni, will continue to be our greatest strength in this effort.

I would like to extend my thanks and gratitude to the members of our Board of Trustees, our Board of Directors, our colleagues, and all the donors who support us.

I wish you healthy and hope-filled days.

Banu TAŞKIN
General Manager

Furkan, TEV Grantee

OUR VISION, MISSION AND GOALS

Vision

To bring our human resources to a point where they can produce and use knowledge.

Mission

To stand in support of successful young people with limited financial means, who will contribute to our country and humanity, and the education system that will help them flourish.

Goal

To provide scholarships to successful students in need of financial support; to support the education system by building schools, dormitories, education centers, and libraries; to give awards to encourage students' studies, and to conduct scientific research on education.

TEV - FACTS AND FIGURES

As the TEV family, we acknowledge the importance of being a source of light and hope for students on their education journey by impacting their lives.

OUR PRINCIPLES AND OBJECTIVES, TEV IN ITS 56TH YEAR AND TEV RESOURCES

We continued to work towards ensuring equal opportunities in education in our country on the 100th anniversary of our Republic, as we have done for the last 56 years.

PRINCIPLES

- To be committed to Atatürk's principles, and to be contemporary, secular and democratic,
- To work independently and unaffiliated,
- To be aware of public morality and responsibility,
- To keep our promises,
- To be open, honest and transparent,
- To stay committed to national and international values.

OBJECTIVES

The goals determined by TEV to create the circumstances required for our citizens to achieve the ideal of modern Türkiye and to develop humanity are as follows:

- To provide educational scholarships to successful young people who need financial support,
- To provide High Merit Scholarships to young people with leadership qualities who will play roles in the future of the country,
- To educate more talented young people at the Turkish Education Foundation İnanç Türkeş High School and increase our country's potential,
- To increase the number of women's dormitories,
- To open primary schools, student dormitories, and teaching centers wherever our country needs them,
- To bolster up social responsibility projects.

TEV IN 56 YEARS

- 284,000 scholarships in Türkiye
- 2,289 scholarships abroad
- More than 110 thousand alumni
- 3 girls dormitories
- 32 educational institutions
- TEV İnanç Türkeş Private High School (TEVİTÖL) since 2001

TEV RESOURCES

- In-kind and in-cash donations
- Donations made by will/grants
- Wreath/condolence donations
- Celebration and special day donations
- General donations
- Scholarship fund donations

HISTORY

TEV was established in May 1967 by 205 founding members led by Vehbi Koç to support the education of successful students who need financial support.

TEV was established in May 1967 by 205 founding members led by Vehbi Koç. Goals of the foundation were stated as follows: "To provide scholarships to successful students who need financial support, to build student dormitories, centers and similar institutions, to make allocations to raise the productivity of the establishments founded, to organize awards to promote students' studies and to conduct scientific research on education."

In 1967, an announcement with the heading "Call of the Turkish Education Foundation to the Turkish Nation" was published in newspapers. The text, starting with "The Turkish Education Foundation which has completed its preparations and has come into operation, considers it an honor to announce the following issues to the Turkish public" consisted of nine items. The following items described general principles and goals along with the reason for its existence:

1. It has now been understood that the acceleration of economic development is only possible with a rise in qualified manpower committed to the homeland. Education is the only key for qualified manpower. Education in Türkiye does not develop at a rate and speed that will ensure rapid development and meet population growth. For this reason, apart from the development lagging behind, our young people who want to receive education but cannot afford it, and our raw values disappear every year.

2. Providing education is the duty of the state. However, we believe that in a country like Türkiye which is destined to develop rapidly, it is the duty of those who have the opportunity to help the state and to contribute to expanding the field of education. Thus, it is a fact that today there is a wide range of such assistance, which started centuries ago in most of the developed Western countries, and cooperation is frequently made in education. That's why the Turkish Education Foundation has been established to make this contribution.

3. The goals of the foundation are to provide scholarships to successful students who need financial support, to build student dormitories, centers, and similar institutions, to make allocations to raise the productivity of the establishments founded, to organize awards to promote students' studies and to conduct scientific research on education.

4. The Foundation will realize these goals based on the interest that our businessmen and our able citizens have shown and will show.

5. The Foundation will award scholarships in the first phase. "The first target is 1000 student scholarships."

6. Every citizen who believes in education may not have the opportunity to donate enough to provide a student scholarship. The Turkish Education Foundation will combine these small donations to generate a sufficient amount for scholarships.

7. Besides, those who want to award scholarships in certain fields will be able to donate for conditional scholarships. For instance, scholarship allocation for Istanbul Technical University Faculty of Mines or Erzurum Atatürk University Faculty of Agriculture.

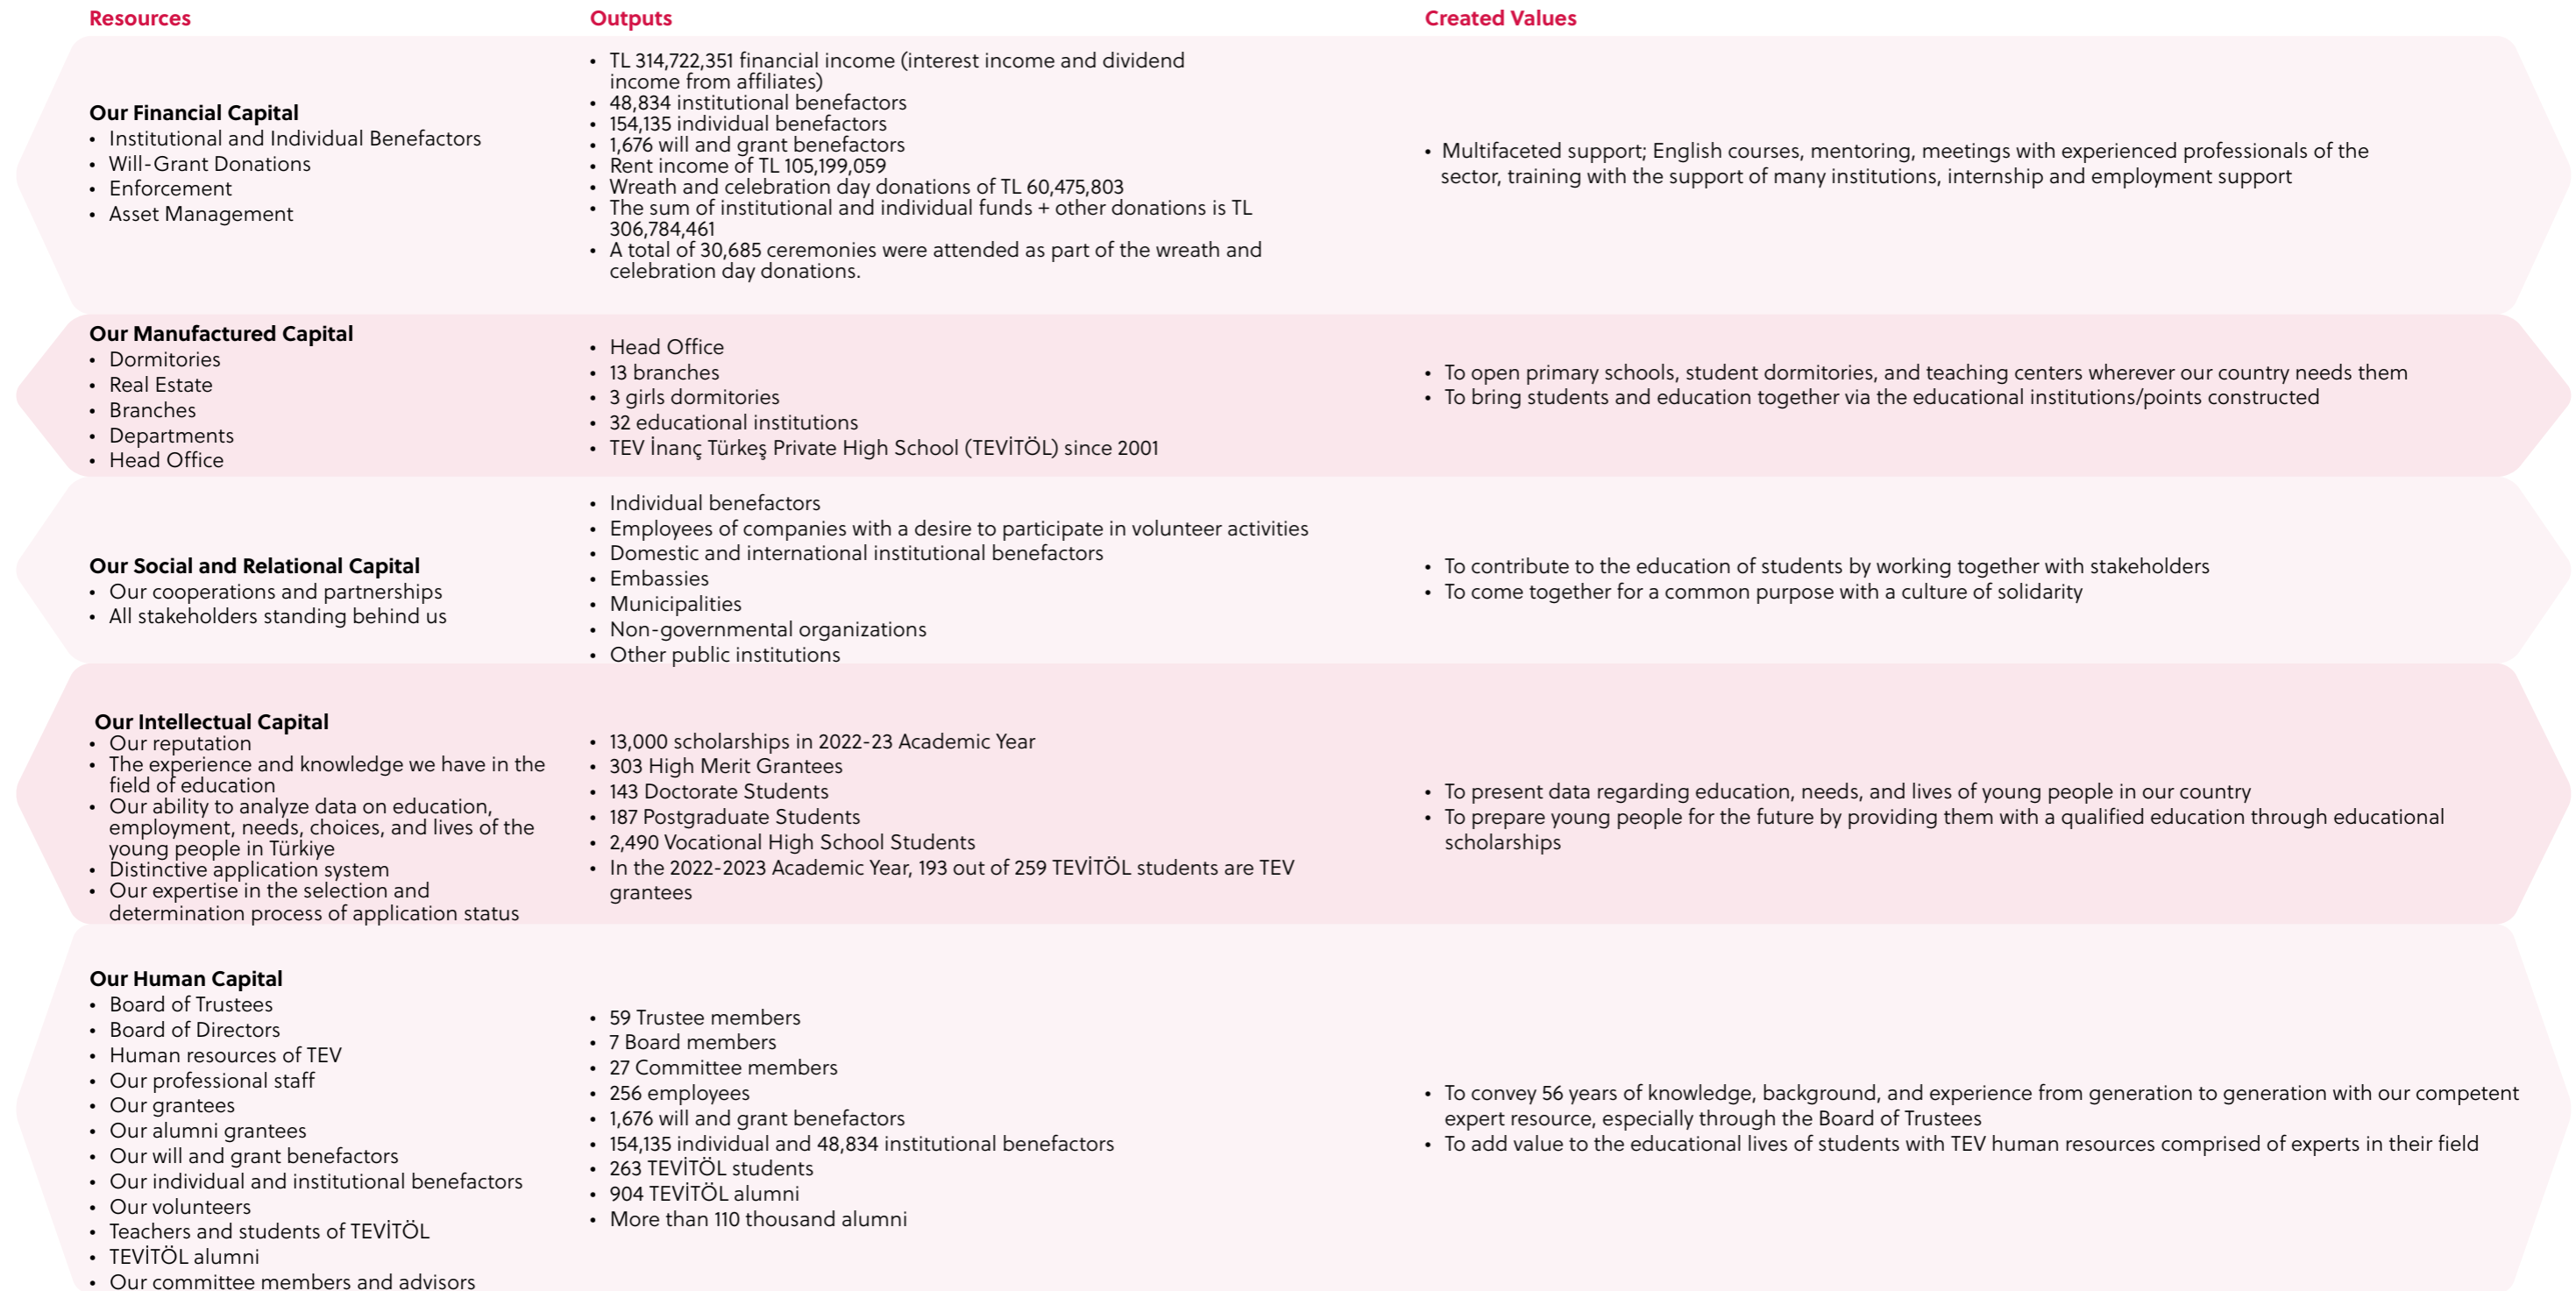

8. Names of the benefactors will be given to these scholarships.

9. Today, numerous individuals and institutions, who want to give scholarships to students, undergo difficulties in identifying and following them. The Turkish Education Foundation has an extensive organization to overcome such challenges and eliminate inconveniences

OUR VALUE CREATION MODEL

For the past 56 years, we have been creating added value for the future of our country by striving for equality of opportunity in education.

OUR CONTRIBUTION TO SUSTAINABLE DEVELOPMENT GOALS

The Turkish Education Foundation serves to contribute to the achievement of SKA 4 (Quality Education) and SKA 5 (Gender Equality) targets.

Quality Education & Gender Equality

The Sustainable Development Goals of the United Nations consist of 17 items that contribute to the sustainability of the world. Each item set aims to contribute to the wellbeing of the individual and the planet where we live, in different fields. Public institutions, private organizations, and non-governmental organizations as the third sector, all of which are the actors of this field, either perform activities in line with these goals determined by the UN or organize their activities in a way that contributes to the attainment of these goals. The Turkish Education Foundation serves to contribute to the achievement of SKA 4 (Quality Education) and SKA 5 (Gender Equality) targets.

Financial support for the access of students to qualified education is the primary scope of the Foundation. Other than the scholarship support provided to avoid the interruption of students' education, the different contents, which will contribute to their educational lives, are developed as well. Online training, seminars, mentoring, and internship support are offered to enable students to tap into their development. With the activities carried out as part of these headings, it is aimed to give additional support to the university education the students had and to help them be integrated into the business life smoothly after their educational life. Secondly, the Foundation attaches importance to gender equality. Insights and experiences obtained from the scholarship interviews indicate that girls and young women are disadvantaged in accessing education.

The Foundation carries out activities to play a role in achieving such goals. With the scholarship funds it has formed for individuals and institutions, the Foundation offers benefactors the chance to make conditional donations. The scholarship funds system also provides the opportunity for conditional donations to the benefactors who want to donate only to female students. Moreover, in the projects launched especially in collaboration with institutions, the paramount condition may require participants to be predominantly female students.

Thanks to the special measures taken to encourage girls and young women to have an education, 56% of our vocational high school grantees and 57% of our university grantees are female.

OUR HONORARY PRESIDENTS

Vehbi Koç

Nejat F. Eczacıbaşı, PhD.

Ahmet Aydın Bolak

Dist. Prof. Sulhi Dönmezer

TEV FOUNDERS

TEV was founded on May 4, 1967 by 205 Turkish intellectuals committed to education under the leadership of the late Vehbi Koç.

While the most significant goal of the Turkish Education Foundation has been “to bring our human resources to a position where they can generate and utilize knowledge,” its most important approach has been “to create an environment where our people can direct their resources to achieve the ideal of modern Türkiye and to contribute to the development of humanity.”

FUNCTION CHART

CORPORATE COMPLIANCE

CORPORATE GOVERNANCE ACTIVITIES

The Turkish Education Foundation kept working as a reputable and fruitful non-governmental organization of Türkiye also in 2023, with its more than fifty years of experience and within the framework of the values that shed light on its working principle and involve all of its activities.

Awareness of people and society, accountability, transparency, commitment to the law, and focus on change and development were applied in all fields of the works grounded on the code of ethics and working principles. Some of the governance practices introduced to give depth to efforts within the framework of these values, and to take action more rapidly are as follows.

A- Corporate Governance Rating Report

For 56 years, TEV has been devoted to promoting equal opportunities in education, while at the same time maintaining a transparent, accountable, and internationally recognized corporate governance process.

The Foundation raised its score to 9.72 this year in the "Corporate Governance Compliance Rating" survey conducted by Kobirate International Credit Rating and Corporate Governance Services, an independent and impartial organization, of which the Foundation was included for the first time last year. In the research, corporate governance performances are evaluated under four main categories: 'Shareholders', 'Public Disclosure and Transparency', 'Stakeholders', and 'Board of Directors'.

B- Committees and Working Groups

Committees and working groups were created under the leadership of the Board of Directors for cementing and improving in-house governance. The working principles of the committees and working groups were set and published on the Foundation's website.

Resolutions on the processes to be given were finalized in a platform where ideas were exchanged with the participation of the committees and working groups, and submitted to the Board of Directors.

Audit and Risk Assessment Committee:

It was established to prepare the findings and recommendations about the actions to be taken for audit, surveillance, and risk management activities during their fulfillment by the Board of Directors, and to submit them to the Board.

Members

- Ayşe Botan Berker - Member of the Board of Directors
- Dilek Mutuş - Member of the Board of Directors
- Bilgehan Işık - Chief Auditor

Finance Committee: It is an advisory board established to ensure efficient management of the Foundation's financial assets, assess financial risks, and evaluate the financial management needed to attain the Foundation's goals by creating maximum benefit, in the light of current developments.

It was founded to periodically assess the Foundation's short- and long-term positions in liquid assets and its financial strategy.

Members

- Mehmet Gerz - Member of the Board of Trustees
- Dilek Mutuş - Member of the Board of Directors
- Ayşe Botan Berker - Member of the Board of Directors
- Banu Taşkın - General Manager
- Burak Taş - Financial and Administrative Affairs Group Manager

Real Estate Committee: It was established to assist the Board of Directors and the relevant departments in setting strategies and principles with potential enhancing practices such as portfolio management and investment, project development, etc. for the real estate owned by the Foundation or to be transferred to it in the future.

Members

- Eser Ceyhan - Member of the Board of Trustees
- Bengü Balkır Mısırlıoğlu - Member of the Committee of Trustees
- Fırat Tekin - Member of the Board of Directors
- Dilek Mutuş - Member of the Board of Directors
- Banu Taşkın - General Manager
- Bedii Can Yücaoğlu - Committee Member
- Firuz Soyuer - Committee Member
- Nermin Ceylan - Legal Counsel
- Cengiz Genç - Construction Manager
- Burak Taş - Financial and Administrative Affairs Group Manager

Our Corporate Governance Compliance Rating Score

CORPORATE COMPLIANCE

Education and Scholarships

Working Group: This working group focuses on developing advice for the Board of Directors by discussing the principles and strategies on which the operational processes of the Education and Scholarships Group Department are based, in the light of students' current data and requests.

Members

- Arda Deniz Yalçınkaya - Member of the Board of Trustees
- Nesteren Gazioğlu - Member of the Board of Trustees
- Yahya Laleli - Member of the Committee of Trustees (Field-specific consultant)
- Mehmet Ali Neyzi, PhD. - Member of the Board of Directors
- Özgür Bolat, PhD. - Member of the Board of Directors
- Banu Taşkın - General Manager
- Meltem Bilikmen - Education and Scholarships Group Manager
- Burak Taş - Financial and Administrative Affairs Group Manager

International Programs Advisory

Members:

- Prof. Dr. Yahya Laleli
- Prof. Dr. Rauf Versan
- Zeyno Erkman Beşikçi

Human Resources Working Group:

HR Working Group was established to provide consultancy and guidance to the HR Department in phases of setting, developing and spreading the Foundation's HR policies and practices in line with its strategy, priorities and objectives. The Working Group shares its evaluations on HR issues and practices, offers different perspectives and ensures that the works are approached from many perspectives. The topics about HR are shared with the HR Working Group before being assessed by the Board of Directors, and then are finalized based on the instructive suggestions of the group and submitted to the Board of Directors.

Members

- Kaya Şener - Deputy Chairman of Board of Directors
- Fırat Tekin - Member of the Board of Directors
- Mehmet Ali Neyzi, PhD. - Member of the Board of Directors
- Banu Taşkın - General Manager
- Elmas Zeynep Arslan - HR Manager

Corporate Communications

Working Group: The Corporate Communications Unit regularly submits information about the communication activities, which are carried out and planned to ensure that TEV reaches the public, the procedures for determining the channels for transferring the strategies to target audience, and the organizations and collaborations with the third parties (advertising and PR agencies, etc.), which will continue/ start, to the Communication Working Group. It is aimed to implement the topics presented for the opinions and evaluation of the members of the working group, through the action plans determined and suggested, and to share their results.

Members

- Kaya Şener - Deputy Chairman of Board of Directors
- Mehmet Ali Neyzi, PhD. - Member of the Board of Directors
- Banu Taşkın - General Manager
- Zeynep Canan Sülün - Corporate Communications Manager

Information Technologies Working

Group: Information Technologies Working Group was established to contribute to the sustainable digital transformation activities of TEV from a visionary and strategic perspective. The Group works to enhance TEV's competitive power in its environment, to track and adapt the qualified examples in the digital field to TEV, to specify the steps earlier based on its future predictions, and to be a pioneer among NGOs.

Members

- Ateş Aykut - Member of the Board of Trustees
- Halil Doğan Bolak - Member of the Board of Trustees
- Mehmet Ali Berkman - Member of the Board of Trustees
- Banu Taşkın - General Manager
- Mustafa Meral - IT Manager

Corporate Governance Committee:

It carries out activities to monitor whether the Corporate Governance Principles are complied with in order to achieve high performance in all kinds of transactions and activities of the organizational structure and administrative environment, to determine the reasons for non-compliance, and to make remedial recommendations to the Board of Directors.

Members

- Kaya Şener - Deputy Chairman of Board of Directors
- Fırat Tekin - Member of the Board of Directors
- Banu Taşkın - General Manager
- Elmas Zeynep Arslan - HR Manager
- Ufuk Kaygusuz - Field Coordination Manager

Branch Relations Working Group:

It ensures that TEV branches work in a coordinated and harmonized manner in line with the goals set by TEV Headquarters and within the framework of communication principles in order to fulfill the objectives set out in the Foundation's Authenticated Contract.

Members

- Murat Kaynar - Member of the Committee of Trustees
- Kaya Şener - Deputy Chairman of Board of Directors
- Fırat Tekin - Member of the Board of Directors
- Dilek Mutuş - Member of the Board of Directors
- Ufuk Kaygusuz - Field Coordination Manager

EDUCATIONAL ACTIVITIES

Established in 1967, TEV grants scholarships to successful vocational secondary education, undergraduate, postgraduate, and doctorate students seeking financial support.

SCHOLARSHIPS

SCHOLARSHIPS IN TÜRKİYE

- Education (Higher Education) Scholarship
- High Merit Scholarship
- Postgraduate and Doctorate Scholarships
- Vocational Secondary Education Scholarship
- Dormitory Scholarship
- TEVİTÖL Scholarship

Established in 1967, TEV grants scholarships to successful vocational secondary education, undergraduate, postgraduate, and doctorate students seeking financial support. Grantees are selected by the commissions formed by their own educational institutions. Representatives of TEV also attend the selection process.

Among the applicants for TEV scholarships, special measures are taken for students with the following special conditions:

- Young People under Protection
- Students with Disabilities
- Students Affected by Natural Disasters and Extraordinary Situations
- Darüşşafaka High School Alumni

In its year of foundation, 119 students received TEV scholarships. The number of scholarships provided up to the present reached 284,000. TEV granted 10 thousand scholarships in the 2021-2022 academic year and 13 thousand scholarships in the 2022-2023 academic year.

Distribution of scholarships in Türkiye for the 2022-2023 and 2023-2024 academic years is shown in the table below:

TYPE OF SCHOLARSHIP	2022-2023 (October - June)			2023-2024 (October - June)		
	Number of Grantees	Monthly Amount (TL/ Month)	Total Amount (TL/Year)	Number of Grantees	Monthly Amount (TL/ Month)	Total Amount (TL/Year)
High School	2,650	575	13,713,750	3,351	1,100	33,174,900
High School (Soma)	71	575	408,250	64	1,100	704,000
High School (Maraş Earthquake-MofNE*)				322	1,515	4,313,190
Female Refugees	187	575	1,075,250	125	1,100	1,375,000
Higher Education	9,330	1,325	111,260,250	12,632	2,500	284,220,000

Girls Dormitories	139	575	799,250	141	2,000	2,820,000
Master's Degree	187	2,000	3,366,000	256	3,750	8,640,000
PhD	143	2,650	3,410,550	178	5,000	8,010,000
High Merit (**)	303	1,325	47,700	406	2,500	27,500
		2,650	7,226,550		5,000	18,270,000
Republic Supplementary Scholarship (***)				13,070	1,000	13,070,000
				3,265	500	1,632,500
Grand Total	13,013		141,347,300	17,480	29,565	376,382,090
TEVİTÖL (****)	193	2,636,502	26,365,018	203	4,505,399	45,053,990
Grand Total	13,206		167,712,318	17,683		421,436,080

(*) Within the scope of the protocol signed with the Ministry of National Education, each grantee receives TL 1,125.00 in September, TL 1,060.00 from October to December, and TL 1,515.00 from January to June. (**) Due to their acquired rights, 11 grantees from previous years are paid 50% more than the scholarship they received in October. As of the 2019-2020 academic year, this no longer applies to newly selected grantees. (***) A one-time payment was made to our university and high school grantees in honor of the 100th anniversary of the Republic. (****) 203 of the 280 students in our school receive full or partial scholarships from TEV. 16 students receive full scholarships from TEVİTÖL. A total of 219 students hold scholarships (Scholarships given by TEV correspond to 150.85 full scholarships).

Highlights from the Domestic Scholarship Practices:

- For the 2022-2023 academic year, scholarship quotas were allocated to 689 faculties of 119 state universities and colleges in 81 provinces, as well as Vocational High Schools, and about 13,000 students, including 201 TEVİTÖL students and international grantees received scholarships.
- For the 2022-2023 academic year, approximately 43,000 students applied for the education (higher education) scholarship of TEV, and following pre-selection, 30,005 students were invited for interview.

- A team of approximately 80 TEV General Directorate and branch managers participated in the selection of scholarship recipients in the fall semester of the 2022-2023 academic year with faculty members from 689 faculties in 81 provinces across Türkiye, ensuring that the selection process was conducted according to the TEV scholarship criteria.

TEV's support to students after the Maraş Earthquake centered in Pazarcık on February 6, 2023

- The day after the February 6, 2023 earthquakes, 2,573 grantees of the Foundation in the affected region were immediately identified through the system, and a TEV team of 35 employees from TEV branches and Headquarters made calls to check their needs and well-being.

- Regardless of whether they were affected by the disaster, all TEV grantees received their scholarship payments a week early.
- An additional one-month scholarship payment was made to 2573 grantees who were in the disaster region.
- In the scholarship interviews conducted a few months before the disaster, a one-time scholarship payment was made to 1,318 students whose student status, success, and financial need were identified in the interviews, but who could not be granted a scholarship due to quota limitations and whose school or family was in the disaster region.

Müge Ezgi, TEV Scholar
Department of Biology Teaching

EDUCATIONAL ACTIVITIES

TEV tracks the success of its grantees every year. Scholarships of students, who are determined to be successful, continue until they graduate from their education institution.

– To support students affected by the disaster, a new scholarship application call was announced in the interim period and 94 thousand applications were received within a week. Following the document and declaration checks, 1,360 university students who were identified as the most severely affected were provided with scholarship support for 4 months between March and June. An additional TL 500 meal allowance was added to the TL 1,325 education scholarship with the support of Yemeksepeti and Multinet. Followed by a Board of Directors decision taken in the summer, it has been decided

that these students affected by the disaster will continue as TEV Education Higher Education Grantees in 2023-24.

– Nearly a thousand Foundation grantees affected by the disaster were given computers due to the transition to distance education.

– TEV Board of Directors has decided to continue the scholarships of all grantees for the year 2023-24, regardless of their achievement status, as it is recognized that more than 80% of the grantees were directly and indirectly affected by the disaster.

– The civil initiative 'Together We Will Heal' provides psychosocial support services to students affected by the disaster.

– A protocol was signed between the General Directorate of Secondary Education and the General Directorate of Basic Education of the Ministry of National Education and TEV to provide scholarships to K-12 students who were identified to be affected by the disaster.

SCHOLARSHIP FOR

Success Tracking

TEV tracks the success of its grantees every year. Scholarships of students, who are determined to be successful, continue until they graduate from their education institution. Scholarship of the students, that ended due to their failure, will continue as of the following year if the said students improve their success status.

Success Awards

In addition to providing scholarships, TEV offers "Award Scholarships" to grantees who meet the success conditions specified in the Domestic Scholarship and Award Regulation, to promote success. Of the grantees who maintained their success status at the end of the 2022-2023 academic year despite the impacts of COVID-19, 1,686 were granted awards as per the regulation. The number of achievement awards granted by TEV has reached 39,905.

Selin, TEV Grantee
Department of Audiology

Scholarship Payments: Scholarships are paid for 9 months of the academic year. Scholarship amounts for the 2023-2024 academic year are as follows:

- TL 3,750 for post graduate students
- TL 5,000 for doctorate students
- TL 5,000 for high merit grantees
- TL 1,100 for vocational secondary education students
- TL 2,500 for university students

The number of grantees awarded additional scholarships and the amount of payments made are given in the following table:

2022-2023		
Type of Additional Scholarships	Number of Grantees	Payment Amount (TL)

INTERNATIONAL SCHOLARSHIPS

The Turkish Education Foundation (TEV) keeps contributing to the education of young people who want to study and research for their post-graduate, doctorate, and medical degrees in top-ranking universities of the world. The foundation collaborates with various institutions in many countries ranging from Denmark to Japan, from Singapore to the United Kingdom.

Every year, TEV provides scholarship support to approximately 220 students abroad, including 85 newly selected grantees.

Turkish citizens who are not over the age of 35 and who obtained a bachelor's degree (minimum grade-point average of 3.0 out of 4.0 or 76.5 out of 100) at the universities in Türkiye under the Council of Higher Education are eligible to apply for the scholarships. Application conditions may vary in different scholarship programs.

Steps for Application to International Scholarships and for Selection of Grantees

Applications received via the website for international education programs that will start at the beginning of the next academic year are first

subjected to technical pre-evaluation. Then, the shortlisted candidates are interviewed by independent academic commissions after the file evaluation. This leads to the determination of the primary and substitute lists.

Some scholarships are partially or fully refundable. Conditions are stated in the announcement of each scholarship program.

Information regarding international scholarships is published on the Turkish Education Foundation website in October and November every year.

ALUMNI AND GRANTEE PROJECTS

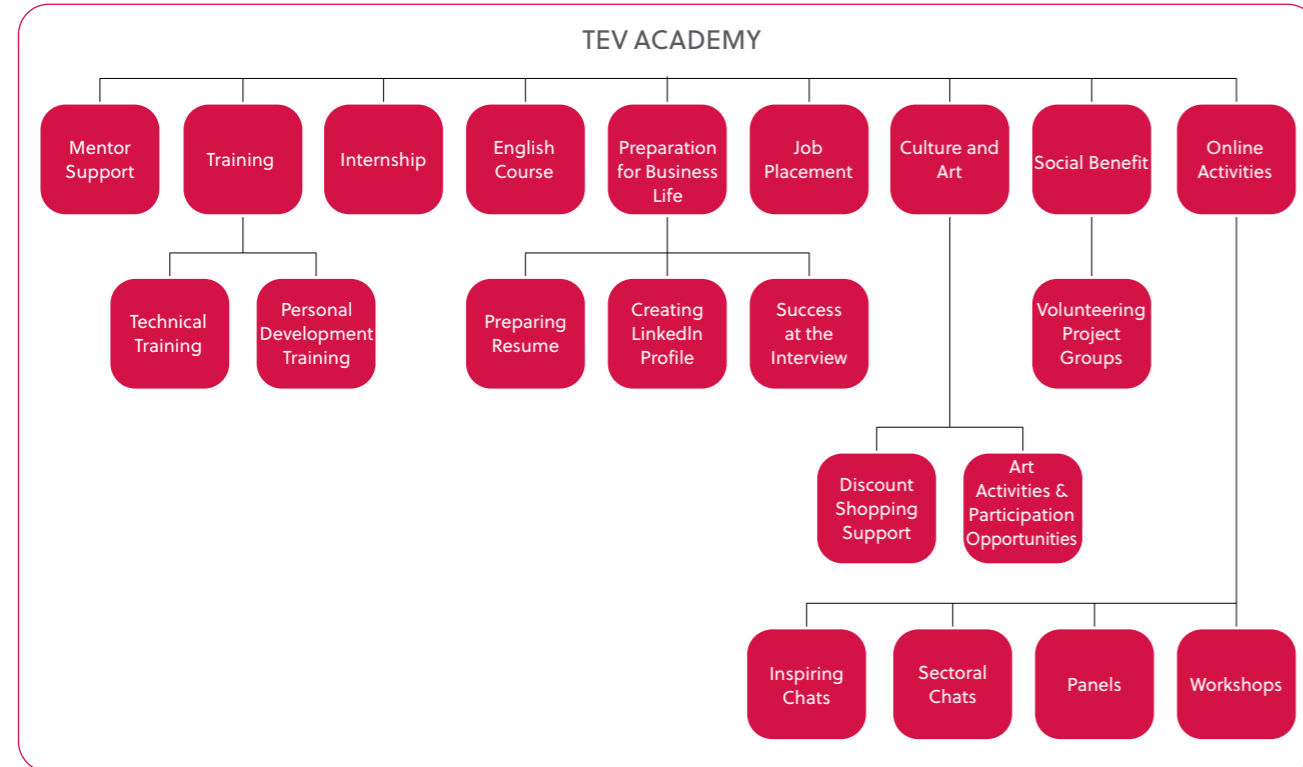

As part of alumni and grantee projects, a total of 50 events and trainings were organized with the participation of more than 5,000 grantees.

The Alumni and Grantee Projects Unit was established in 2017 to strengthen ties between the Turkish Education Foundation and its graduates, to increase solidarity, and to improve communication between them.

The main purpose of the unit is to update the alumni information system and to ensure that alumni are informed about each other and the events organized by TEV. In this way, effective, efficient, and sustainable communication can be established with the alumni.

Information Update
Information on our alumni, whose lives we touched and whose stories we were a part of during their education, continued to be updated in 2023. Since 2017, TEV Branches and Education Unit have updated the information of about 58,442 grantees.

SUPPORTS FOR GRANTEE/TEV ACADEMY

- 50 projects, events, and training sessions were held.
- Over 5 thousand grantees attended the training and events.
- English language school support was provided both in-person and online.
- English language school support with discounts was provided to alumni, grantees, and employees.
- Within the last five years, scholarship alumni donated over TL 20 million.
- In 2023, more than TL 10 million was raised.
- 257 grantees were provided with internship opportunities in cooperation with 50 institutions.
- Telephone and e-mail information of 58,442 alumni were updated within five years.

ALUMNI AND GRANTEE PROJECTS

TEV-We Will Heal Together Psycho-Social Support Project

On February 6, 2023, the Foundation launched the TEV - "We Will Heal Together" project, an initiative that seeks to understand the impact of the earthquake on grantees affected by the disaster, to support them, and to help them continue their university education. The main objective of the project is to thoroughly assess and identify the trauma, stress, and psychological difficulties caused by the earthquake. In this regard, one of the primary objectives is to contribute to the well-being of grantees and enable them to continue their university education. The project also aims to increase TEV's ability to effectively respond to crises.

The work carried out within the scope of this special initiative covers several areas. Firstly, a software program was designed specifically for TEV to ensure that the project is effectively managed and that solutions are customized for the needs of the grantees. In addition, a call center, which was created to respond to student calls instantly, is supported by experts. This ensures quick and effective solutions to the challenges faced by grantees. 63 students received support from this program in 2023. In addition, online meetings were organized to contribute to the students' well-being, and events were organized with the participation of successful psychiatrists, experts, and artists.

TEV Grantees Meeting

On May 3, 2023, a grantee meeting sponsored by Yapı Kredi Bank gathered TEV's successful alumni as well as prominent figures from the business and art community. Nearly 500 grantees participated in this meeting, and alumni from all over Türkiye and around the world had the opportunity to join the meeting online via live broadcast.

TEV Mentorink

In addition to the scholarships it provides to its grantees, TEV also offers a wide range of support to help them transition from their educational lives to the professional world as fully prepared individuals. Being a platform that provides knowledge and experience based on mutual development by ensuring the most appropriate match between alumni and scholars, TEV Mentorink offers its alumni and grantees an online mentoring platform specific to TEV Education-Friendly institutions.

In 2023, EMCC Türkiye Social Responsibility Group Leader Banu Aykın Köylüer organized training for mentees and mentors, and a series of online events to promote the program.

Almost 500 members of TEV family attended these events.

TRAINING-EVENTS

TEV-Turkcell Grantees Development Program

As part of the Turkcell Academy-Turkish Education Foundation partnership, the TEV-Turkcell Scholar Development Program aims to effectively support grantees supported by TEV on the journey toward their careers and professions.

This specialized training program has an online, accredited structure that includes online classroom training, video content, examinations, e-learning modules, and webinars. The program was designed based on the needs of the grantees and the efficiency analysis studies.

Within the scope of the program, over 1,000 undergraduate students benefited from 9 months of training and development opportunities. This process has been specifically planned to provide scholars with sector-specific skills, shape their careers, and develop their areas of expertise.

May 3rd Grantee Meeting

More than **3,000** grantee applications to Mentorink

Reaching more than **10,500** TEV family members since 2016

More than **2,600** mentor-mentee meetings

More than **2,000** mentor engagements

ALUMNI AND GRANTEE PROJECTS

In 2023, nearly TL 5,5 million was contributed through individual and corporate funds created with the contributions of alumni grantees.

Trainings Provided by Turkcell Academy

- Welcome to Business Life, Invest in Yourself, Improve Your Technique
- The Most Curious Points About Entrepreneurship
- Make Difference with Your Presentations

- Effective Project Management
- Effective Presentation Training
- Personal Brand Management
- Psychology of Happiness
- Public Speaking
- Artificial Intelligence and Turkcell
- Digitalized New World

TEV-Özyeğin University Financial Literacy Trainings

Aiming to provide undergraduate students with financial knowledge and skills, the Financial Literacy Trainings were organized in cooperation with TEV and Özyeğin University. This comprehensive training program aims to provide a broad financial perspective, enabling students to obtain basic knowledge of financial issues and make conscious decisions on financial issues. Students and alumni benefited from these online and in-person trainings. The trainings lasted for a total of 4 weeks. A total of 155 grantees have completed their training and obtained certificates from this program.

TEV-Özyeğin University Financial Literacy Trainings

- Saving, budgeting and savings
- Investment instruments
- Financial planning
- Insurance
- Private pension insurance
- Financial technology
- Financial health

TEV - Fenerbahçe Ceremony

TEV Türkan Sedefoğlu Primary School students participated in the ceremony as guests of Fenerbahçe Sports Club.

TEV Family Gathers!

Online grantee meetings were held. In the meetings, many topics ranging from the economy to the business world, from social issues to culture were covered. Over 5,000 alumni and grantees participated in the events.

Some of the events held are;

- Sinan Sülün - Storytelling in Business Life
- Prof. Dr. Ayşe Arman Rodopman- Adolescence and Social Media Relationship

McKinsey Trainings: "Tea Talk," "Future of Work," and "Design Thinking"

More than 500 participants participated in "Tea Talk," "Future of Work," and "Design Thinking" training held in three separate sessions as part of the TEV and McKinsey cooperation. Training sessions proceeded with the interactive workshops.

English Course

English course support is one of the non-scholarship activities offered to TEV grantees. To identify the grantees who will benefit from the support, a survey was sent to understand the need, success, and motivation for having online language education. Nearly 2,000 grantees participated in the survey.

The project was launched to contribute to the development of individuals by providing discounts at certain rates in all languages to TEV alumni, TEV employees, and their relatives.

Branch Offices signed language agreement protocols with numerous institutions during the year. Cooperations were made with schools such as AmericanLife, Private Trabzon Moda Language Academy, YDS Academy Private Foreign Language Education, Wimbledon Language Academy, and AmericanLife Language School, and face-to-face and online training sessions were held in numerous provinces of Türkiye. Training events will continue also in 2023.

"Women's Health Seminars" with Yasemin Yakut

A session on the topic of the current perspective on women's health was held in the Young Women's Health Seminar Program with Yasemin Yakut, MD.

Kunduz

In cooperation with the mobile education platform, Kunduz, particularly the 4th year vocational high school students were provided with question and solution support through the Kunduz application. About 400 grantees studying at vocational high schools benefited from the free education support.

Istanbul Metropolitan Municipality-Regional Employment Offices

In cooperation with TEV-Regional Employment Offices, TEV grantees were provided with part-time job opportunities and internship support. In 2023, more than 158 TEV grantees completed internships at Istanbul Metropolitan Municipality and its subsidiaries.

UnoMoi Clothes Support Project

As part of the project carried out with UnoMoi, TEV grantees were able to wear UnoMoi's designs from world-famous brands at their graduations, birthday parties, important events, and, most importantly, internship/job interviews at no cost. 145 students benefited from the program.

TEV International Alumni Meeting

On December 22, 2023, TEV Hope Meetings were held at Villa Bosphorus in Istanbul, bringing international alumni together.

TEV x BCG 360° Consulting Program

TEV's high-merit grantees benefited from this program in the 2022-2023 academic year. The grantees who will participate in the program will have the opportunity to;

- One-to-one meetings with BCG employees of different levels,
- Many training sessions such as case solution studies, interview and resume preparation techniques and problem solving,
- Taking part in the 6-month BCG mentorship program,
- The students had the opportunity to intern at BCG Türkiye at the end of the program.

Internship, Career Counseling, and Career Opportunities

TEV provides internship and job opportunities for grantees via its alumni and partner organizations. To date, internship and career support has been provided in cooperation with nearly 1,100 organizations.

TEV Alumni Funding

Individual and institutional funds were established with the contributions of alumni grantees, and nearly TL 5.5 million was donated in 2023. In addition, thanks to Turkcell, 60 computers were provided to students who were affected by the disaster. In 5 years, more than TL 20 million was donated in total.

OUR DORMITORIES

In 2023, TEV has accelerated its efforts to expand the capacity of the modern, safe, and comfortable accommodation it offers to young people.

We Provide Safe and Comfortable Accommodation for Our Students

The students who stay in TEV dormitories benefit from the food and housing aid provided by the Ministry of Youth and Sports to students staying in higher education dormitories belonging to tax-exempt foundations and public benefit associations.

In 2023, TEV has accelerated its efforts to expand the capacity of the modern, safe, and comfortable accommodation it offers to young people. In this regard, the Foundation signed protocols for the construction of two new higher education girls' dormitories in Balçova, Izmir, with a capacity of 154, and in Yenimahalle, Ankara, with a capacity of 352. Dormitory constructions are ongoing.

Private Turkish Education Foundation Sedef Ölçer Higher Education Girls Dormitory (Ankara)

The TEV Sedef Ölçer Private Higher Education Girls Dormitory was opened at service of female students in December 2015. It is centrally located on the main transportation lines. The dormitory has a capacity of 189 students. It renders accommodation service to paid and scholarship female students. The dormitory has 7 five-person, 35 four-person, and 7 two-person rooms. Each room has a bathroom and WC, a personal desk, a bookshelf, a closet and a shoe cabinet. Offering female students a modern living space, the dormitory has a cafeteria, drawing atelier, Internet service, computer room, prayer room, luggage room, infirmary, study room, TV and free-time space, gym area and project drawing room, table-tennis table, and a refrigerator, iron and ironing table on each floor. Students are provided with free breakfast, as well as optional dinner for a fee. Professional administrative staff and security team hold offices in dormitories.

Furthermore, common areas and outer spaces have a camera security system. Personal accident insurance is provided for each student who stay in the dormitory. Various trainings and courses are organized for the personal and social development of students.

Private Turkish Education Foundation Cumhuriyet Higher Education Girls Dormitory (Izmir)

Private TEV Cumhuriyet Higher Education Women's Dormitory was brought into the use of students in 2011. It is within walking distance of general transportation lines, Dokuz Eylül University Faculty of Medical-Nursing-Physical Therapy and Rehabilitation, Dokuz Eylül University Health Vocational School and Izmir University of Economics. It is also close to Izmir University of Democracy and is accessible to Ege University by metro. Its 373-student capacity serves both grantees and paid students. The dormitory has 124 three-person rooms and 1 room for the disabled. Each room features a closet, desk, bathroom, toilette, central heating and cooling, and Wi-Fi. Offering female students a modern living space, the dormitory has a cafeteria, a computer room, study rooms, a drawing room, TV and free-time spaces, a garden, a visitor's room, an infirmary, a prayer room, a library, a laundry room, a food-beverage dispenser,

and a table-tennis table. It has a management staff and a professional security team serving 24 hours a day, as well as a camera security system. Personal accident insurance is also provided for each student. Seminars and training are organized for the personal and social development of students who stay in the dormitory. Students can also make use of the nearby sports complex. The dormitory building, which offers a modern living space, features three-person rooms with forest and sea views. The dormitory is available to both grantees and all students seeking a safe family environment for a fee.

Private Turkish Education Foundation Higher Education Girls Dormitory (Trabzon)

The dormitory, which is 1.5 km away from Karadeniz Technical University, was opened in 2012 with a bed capacity of 252 students. The students who stay at the dormitory in the 2022-2023 academic year have predominantly come from Istanbul, Ankara, Kocaeli, and Samsun. The total number of cities from which the dormitory students have come is 45. In addition, 1 student is from Djibouti, a country in East Africa. In this academic year, the number of female students is 149, 46 of whom are grantees.

The dormitory features 63 four-person rooms including one for the disabled. Each room has desk, closet, coat check, dresser, bathroom and toilette. It is aimed to meet various needs of students and offer a life space to them. The dormitory has a cafeteria, dining hall, canteen, sports room, laundry, multi-purpose meeting room, lobby, prayer room, and many other rooms such as TV, study, computer, drawing, and dental care room. Rooms have wired Internet access while common areas have Wi-Fi Internet access. Other services such as a central heating system and technical services are also provided. Common areas and

outer spaces of the dormitory are monitored with camera recording systems. Professional administrative staff and security team hold office there. The dormitory offers breakfast, dinner, university shuttle service, and personal accident insurance to each student free of charge.

Each student staying at the dormitory is provided with breakfast and free personal accident insurance. The dormitory also offers fast food, dinner, and a shuttle service from and to the university at certain times of the day at an affordable price.

Students are also backed up in terms of social development. In this regard, training sessions about communal life culture, professional goal setting, English, leadership, and development of personal and social skills are given to them. In addition, TEV prioritizes gathering together on national and religious holidays, commemoration days, New Year's Eve, etc. to emphasize the meaning and importance of the day and to be together with students.

TEVİTÖL

TEVİTÖL's mission is to identify the unique characteristics and talents of each student and to foster these talents to the highest level.

At TEVİTÖL (TEV İnanç Türkeş Private High School) which gives education to the students with special abilities, curriculum of Anatolian High Schools as well as the special ability development programs in different fields of art and science are applied. Contributing to versatile development of students, TEVİTÖL is the only institution that provides privileged education needed by the students with special abilities, as a co-ed boarding school today.

In 1990, the founder of STFA, the late Sezai Türkeş established a foundation to open a school to honor the memory of his deceased wife, İnanç Türkeş, and to ensure the education of the bright children with limited financial means. In line with this purpose, in 1993, the Foundation opened Private İnanç High School which then would be a boarding school for 300 students. TEV took over İnanç High School in 2001. The school was renamed The Turkish Education Foundation İnanç Türkeş Private High School (TEVİTÖL). The boarding school, TEVİTÖL gave its first graduates in 2000.

You can find the 2023 TEVİTÖL events by scanning QR code.

TEVİTÖL's campus is located in Gebze Muallimköy, on approximately 414 decares of land, 30,000 m² of which is closed area. In addition to five different education buildings, the school campus has TEV Nevin Mehmet Bilginer Culture and Art Center, a meeting and performance hall with a 500-person capacity in this center, Güher and Süher Pekinel music classrooms, eight separate student dormitories, infirmary, cafeteria, science laboratories, visual arts workshops, robotics workshops, a half-Olympic swimming pool, outdoor and indoor sports fields and teacher lodgings, and a wide range of opportunities for sports, science and art.

With 280 students from 42 provinces, TEVİTÖL has 904 alumni as of 2023. About 30% of the TEVİTÖL alumni studied or currently study at prominent universities such as Jacobs, Drexel, Bocconi, Delft, Columbia, Duke, Harvard, MIT, Stanford, Brown, and Yale. The teaching staff at the school consists of 46 full-time and 10 part-time teachers.

TEVİTÖL's Mission:

To identify and develop the individual characteristics and abilities of each student to the highest level.

TEVİTÖL's Vision: To develop the abilities of bright students with high potential for the benefit of humanity and to raise them to realize their potential to shape society as future leaders and scientists.

TEVİTÖL's Education Policy:

- To prepare students for the constantly changing conditions and to enable them to use the skills they need to have under such conditions,
- To provide education that will enable them to have the necessary qualifications of their time and train them to be world citizens,
- To educate students to be the leaders and scientists of the future who will be experts in national and international fields,
- To raise individuals who can think universally and produce national and local solutions, and encourage them to use their talents for the benefit of their country and humanity,
- To provide education according to Atatürk's principles, so that they can contribute to the society's attainment of contemporary civilization.

TEVİTÖL's Goals:

- To maximize the students' potential,
- To ensure students' academic success, along with their social and sports success,
- To promote different perspectives, critical thinking, and creativity,
- To develop a sense of responsibility,
- To holistically support students' physical, emotional, personal, and moral development,
- To direct them towards scientific research,
- To raise solution-oriented leaders who think, question and identify problems.

TEVİTÖL's Values:

- Confidence
- Mutual respect
- Sharing
- Consistency
- Integrity
- Tolerance
- Creativity
- Responsibility
- Fairness
- Wisdom
- Happiness
- Love

Educational Mentality in TEVİTÖL

The "Private Anatolian High School" program is officially implemented at the school. Holistic development of the bright students is taken into account with the T21C program, which started to be implemented as of 2019 and focuses on research and questioning along with the skills of the 21st century, and extracurricular cultural and social activities. Enriching content of the education programs according to the abilities of its students, TEVİTÖL formed its academic staff in a way that 1 teacher will be assigned to 6 students. Two-thirds of the students turn towards the field of science and natural sciences, while the others are classified to study in the fields of economics, law, and social sciences.

Education is performed with a class size of 20 people in special learning spaces arranged according to needs of the students. German is the second language taught. The students with an advanced level of German are supported with extracurricular certificate courses.

TOEFL ITP and TOEFL IBT exams are applied to track English level and level targets of the students. English program was designed by the school teachers based on T21C philosophy, considering the interests and skills of the students.

Güher & Süher Pekinel Music Department

The department was established in the 2006-2007 academic year with the support of Güher & Süher Pekinel pianist sisters, upon the profound requests of TEVİTÖL students and the management. The Music Department aims to enhance the quality of TEVİTÖL as an exemplary school in this field by taking the music course, which is offered as an elective course in many schools but does not bring any results due to insufficient infrastructure, to the highest level possible.

TEVİTÖL

The obligation to conduct research and write essays, which is part of the TEVİTÖL education system, aims to help students develop their research, creativity, and presentation skills.

Students at Güher & Süher Pekinel Music Department absorb the inspiring and relaxing effect of music to excel at an instrument, with disciplined efforts and the support of their teachers, who are lecturers and orchestra artists in conservatories. Students are selected for the department after the musical perception exam and are included in the program that contains general music education, solfege, and music history courses. Although TEVİTÖL is not a music school, the training students receive in the music department is equivalent to the first level of a part-time conservatory.

Bright students are provided with the most appropriate environment and are enabled to use their capacities at the highest level through fitting methods and educational programs.

Clubs & Activities

Obligation to do research and write articles, which is a part of the education system, aims to improve students' skills in research, creativity and presentation. Other than academic education, students exhibit their high potential by engaging in various activities that develop themselves during the activities.

Since these events and clubs are organized and run by students, they also improve the organizational skills and sense of responsibility of young people.

The school has more than 60 active student clubs. Each student participates in at least two clubs, one of which is community service, every year from Prep Class to Grade 11, and continues their extracurricular activities. In particular, clubs such as IMC (İnanç Mechatronics Club), MUN (Model United Nations), Drama, Entrepreneurship, VEX robotics, drone, web design, sports clubs, debate, mathematics, and philosophy have achieved great success in the national and international scene.

Gizem İncesu Became One of the 25 Most Successful Turkish Graduates in the USA in 2023

The "Study in the USA" program, which has been helping international students to study in the US since 1993, has named Gizem İncesu, a TEVİTÖL alumnus of the Class of 2019, among the 25 most successful Turkish alumni in the United States. After graduating from Stanford University with a degree in Computer Science and German Language and Literature, Gizem works as a computer engineer at Google New York.

BENEFACTOR RELATIONS

TEV manages the assets, income and expenditures donated by its benefactors in a highly effective manner and monitors and reports them through an electronic system infrastructure.

TEV works with great attention to utilize the precious donations entrusted to the Foundation by its benefactors in accordance with their wishes and in the manner they deserve. The assets they donate and the income and expenses related to these donations are managed very effectively while being tracked and reported through the electronic system infrastructure. With the real estate development projects, their properties are put to good use, the inefficient ones are sold and made productive, and their cash assets are utilized correctly. In a nutshell, the sustainability of their funds and their transformation into education support at the highest rate are ensured.

BENEFACTOR RELATIONS

The benefactors, who are the real reason behind the value that TEV generates for society, are provided with moral support through good and bad times to ensure their safety and security.

BENEFACTOR RELATIONS DEPARTMENT

TEV benefactors make up the Foundation's significant value sources with their will and grant donations. One of the most important responsibilities of the foundation is to meet the moral obligations regarding the needs and wishes of its valuable benefactors. With this approach, we always meet the needs of our benefactors, who are the real custodians of the value TEV generates for society, to the extent possible, and provide them with moral support in both good and bad times to make them feel safe and secure.

During 2023, as part of the moral services we provide to our will and grant benefactors, we contacted them regularly by phone, asking about their needs and wishes, and if they requested help, we regularly followed up and fulfill their needs within the bounds of the Foundation's possibility. Besides, we organized celebrations on their special days, making sure our benefactors did not feel alone.

When our benefactors faced health problems, we made doctor/hospital appointments and accompanied them to hospitals, paying attention to hygiene rules throughout the examination/ treatment processes carried out on the same day. When they needed to go to the hospital for treatment and examinations, our foundation vehicles or an ambulance took them to the hospital, and we gave them as much moral support as we could.

Throughout 2023, within the service contracts drawn up every year, our will and grant benefactors benefited from the "Medical Counseling, Emergency Aid, Ambulance, and Doctor Service" sections for use in emergency health needs, approximately 71 times at different periods free of charge. An ambulance was directed to the homes of benefactors who had requested an ambulance in case of need.

Within the scope of service contracts made for TEV benefactors, contracts were made with health institutions, hospitals and nursing homes for benefactors who do not have any health insurance. If benefactors wish to receive treatment from a private health institution, the contracted Acıbadem Hastaneler Grubu, Başkent Üniversitesi İstanbul Sağlık Uygulama ve Araştırma Merkezi Hastanesi, Dünya Göz Hastaneler Grubu, Florence Nightingale Hastaneler Grubu, Koç Sağlık Grubu (Amerikan

Hastanesi, MedAmerikan Tıp Merkezi/ Moment Eğitim Araştırma Sağlık Hizmetleri ve Ticaret A.Ş., Bodrum Amerikan Hastanesi/Halikarnas Özel Sağlık Hizmetleri ve Sağlık Malzemeleri Sanayi Ticaret A.Ş., Koç Üniversitesi Hastanesi), Academic Hospital, Özel Yaşar Baytak Ağız ve Diş Sağlığı Polikliniği, MLP Sağlık Hizmetleri A.Ş. (Türkiye genelinde bulunan Medical Park Hastaneleri, Liv Hospital Ankara ve Liv Hospital Samsun), Biruni Analiz ve Sağlık Laboratuvar Hizmetleri Sanayi A.Ş., Türk Kalp Vakfı, Özel Fransız Lape Hastanesi, Makstone İşitme Ürünleri Satış ve Pazarlama A.Ş., Özel Levent Hastanesi, Doruk Hastaneleri, Anadolu Eğitim ve Sosyal Yardım Vakfı Sağlık Tesisleri İktisadi İşletmesi, Unimed Anadolu Sağlık Hizmetleri ve Ticaret A.Ş. (Intermed Tıp Merkezi), İstanbul Memorial Sağlık Yatırımları A.Ş., Can Medical Hizmetler A.Ş.- Özel Lifemed Tıp Merkezi, Özel Yeni Vidi Göz Merkezleri, Yeditepe Üniversitesi Hastanesi, Alarm Sağlık Hizmetleri Sanayi ve Ticaret A.Ş. (Medline – Acil Sağlık Hizmetleri), Anadolu Johns Hopkins Medicine Sağlık Grubu, Biruni Üniversite Hastanesi provided discounts at different rates for medical examinations and consultation services. Moreover, benefactors also benefited from nursing homes at a discounted rate following the contracts signed with Kızılay Care

Zeynep M. Nedim Oyvar Nursing Home and Elderly Care Center, Galatasaray Dormitory Nursing Home and Elderly Care Center, Private Asude Life and Health Centers, Suadiye Nursing Home Elderly Care Center, Hatice Satoğlu Nursing Home, Kadıköy Health Education Center Foundation (KASEV), Nezih Nursing Home, Kızılay Care Zeynep M. Nedim Oyvar Nursing Home.

We cooperate with the nursing homes and suggest them to our benefactors who want to live in a more social environment, and to protect or increase their quality of life, or who want to stay at the nursing home temporarily or permanently to receive regular care. They can accept such locations the cost of which will be covered by themselves. We visited these institutions together with the requesting benefactors. If they are deemed appropriate, moral support is provided to them and the procedures of the institutions they chose were fulfilled. We enabled the relevant benefactors to settle into the nursing home they demanded.

EUROPEAN SIDE BENEFACTOR RELATIONS DEPARTMENT

- At the mevlit and prayer service on April 13, which was held in Dolmabahçe Bezm-i Âlem Valide Sultan Mosque on the European side of İstanbul and in all provinces across Türkiye where TEV branches are located, and which was open to the public,
- At the C-Major Solo concert for will/grant benefactors at Beşiktaş Akatlar Cultural Center on May 29,
- At the Graduation Ceremony at TEVİTÖL on June 1 with will/grant benefactors living throughout İstanbul,
- On a visit to Dolmabahçe Palace on August 2,
- At the concert on September 20, at the Divan Fenerbahçe Faruk Ilgaz Facilities, attended by will/grant benefactors living throughout İstanbul, the esteemed artist Erol Evgin performed at the 100th anniversary of the Republic celebration dinner as part of TEV's 56th anniversary,

- At the "Commemoration of Zeki Müren, mevlit and prayer" organized publicly on September 24 in Bodrum, as part of the commemoration events held for the late Sun of Art, Zeki Müren at the Zeki Müren Art Museum, in cooperation with the Turkish Armed Forces Mehmetçik Foundation and Bodrum Municipality, also at the mevlit held on the same day at the Emir Sultan Cemetery and at the Bursa Zeki Müren Fine Arts High School in Bursa,
- At the "Health Seminar" at Medical Park Gaziosmanpaşa Hospital on November 23rd,
- Lastly, on December 21, for benefactors living in İstanbul who donated to the Foundation through wills or grants, a ceremony was held at TEV Headquarters for the European and Anatolian Side Benefactor Relations Directorates to present certificates of appreciation to the benefactors with the participation of the Chairman and Members of the Board of Directors.

BENEFACTOR RELATIONS

TEV strives to fulfill its duties in the best way possible in order to keep the connection based on love and trust with its valuable benefactors strong and dynamic.

Our Foundation came together with the benefactors, grantees, volunteers and employees at the above events.

In 2023, as in every year, TEV benefactors were called or sent Happy Day Cards in order to celebrate special occasions such as "Eid, March 8 International Women's Day, Mother's Day, Father's Day, Teacher's Day, New Year's Day, and Birthdays."

Commemoration Ceremonies

Commemoration ceremonies at the graves of the esteemed deceased TEV benefactors who were well known to our public - Ahmet Adnan Saygun, Safiye Ayla Targan, Ferdi Özbeğin, Zehra Macide Tanır and Türkan Sedefoğlu - were held in 2023. Our commemoration ceremonies were announced to the public in Turkish newspapers, on our website and on social media, and relatives, friends and loved ones of the benefactors were invited to join the ceremonies.

27th Anniversary of the Death of Zeki Müren

In Bursa:

On Sunday, September 24, 2023, at 11:00 a.m., with the participation of TEV Bursa Branch Department, TAF Mehmetçik Foundation Bursa Representative Office, Zeki Müren Fine Arts High School administrators, Zeki Müren's relatives, friends, loved ones, members of the press and the public, a commemoration ceremony was held at his grave in Emir Sultan Cemetery, with a mevlit and prayer at Emir Sultan Mosque at 11.00 a.m., and at Zeki Müren Fine Arts High School at 3.00 p.m. on the same day.

In Bodrum:

Within the 27th anniversary of the death of the Sun of Art, Zeki Müren, a mevlit was held publicly at Bodrum Zeki Müren Art Museum on September 24, 2023 at 2:30 p.m. with the participation of the Chairman of the Board Prof. Dr. Mehmet Şükrü Tekbaş, TEV Legal Counselor Nermin Ceylan, TSKMEV General Manager İsmail Şanlı, and Bodrum Mayor Ahmet Aras. On the same day, a memorial concert was held at the Bodrum Antique Theater at 8:30 p.m. with the participation of benefactors and the people of Bodrum. Bekir Ünlütaer performed at the concert which was hosted by Bodrum Municipality.

News about the commemoration events held for Zeki Müren in Bursa and Bodrum was published in the Türkiye edition of the Hürriyet newspaper on September 23. The public was also informed about the commemoration program by the announcements posted on billboards and digital boards in Bodrum. Besides, an effective communication process was performed on social media and other media.

We Remember Our Benefactors Who Passed Away...

As every year, death and condolence announcements for deceased benefactors were published in Türkiye edition of a national newspaper. Funeral and burial procedures, grave maintenance and repairs of all deceased benefactors continued to be performed meticulously, considering the special requests in their wills.

Wishes of the benefactors who passed away in 2023 were fulfilled in accordance with their wills. Obligations in their wills such as sacrificing animal, dressing the needy children, rewarding the successful students, buying books, materials and stationery for schools, and carrying out the maintenance and repairs needed by these schools were fulfilled.

In addition, within the framework of the protocol drawn up with the auction company, Alif Art Antikacılık A.Ş. ve Artam Antik A.Ş., movables passed from the benefactors to the foundation continued to be assessed, and then sold by auction. The revenues attained were transferred to scholarship fund accounts of the benefactors.

According to the will of TEV benefactors;

- Clothing aid was provided to 72 students who have limited financial means studying at Ürgüp Türkan Diker Primary School and Ürgüp Mehmet Diker Secondary School in the Ürgüp district of Nevşehir province, named after the late benefactor Türkan Diker and her husband.
- Built upon the will of the benefactor Kamile Cephaneçioğlu, TEV Kamile Cephaneçioğlu Palliative Care Center keeps giving service to the abandoned citizens for whom it is hard to care.
- Clothing aid was provided to 90 students who have limited financial means and are studying at Kamile Çömlekçioğlu Secondary School, located in the Muratpaşa district of Antalya province and named after the deceased benefactor Kamile Cephaneçioğlu.

- The laboratory equipment needs of TEV-Uğuz Tarık Demirağ Vocational and Technical Anatolian High School were met and the top 3 students graduating from TEV-Uğuz Tarık Demirağ Vocational and Technical Anatolian High School, built in the name of our late Uğuz Tarık Demirağ, were given computers for their achievements.
- A total of 120 disadvantaged students with limited financial means studying at Dr. Mustafa Gençay Primary School, Beyhan Gençay Secondary School and Dr. Mustafa Gençay Anatolian High School in Hatay received gift vouchers and in-kind aid. The name of the deceased benefactor is Mustafa Gençay.
- The following 5 schools named after our deceased benefactor Bedii Sabuncu, located in Hatay province, Antakya and Samandağ districts, were provided with painting and renovation, digital piano, pipe organ, stationery, desks, laptops and A4 photocopiers for the use of students.

The names of the schools built by the deceased benefactor Bedii Sabuncu are as follows:

1. Antakya Bedii Sabuncu Primary School
2. Antakya Bedii Sabuncu Fine Arts Anatolian High School
3. Samandağ Karaçay Bedii Sabuncu High School
4. Batı Ayaz Bedii Sabuncu Primary School
5. Güney Söğüt Bedii Sabuncu Primary School

- General cleaning supplies were purchased for a school located in Keçiören, Ankara. Name of the deceased benefactor is Asiye Adademir. Name of the school is İbrahim Akoğlu Primary School.
- General cleaning supplies have been provided for the school named after the benefactor and her husband in Karesi district of Balıkesir province. Name of the deceased benefactor is Fatma Güzin Kutvar. Name of the school is Fatma-Emin Kutvar Anatolian High School.

- Stationaries of the school located at İzmir province Menemen district were provided. Name of the deceased benefactor is Fatma Melahat Aksoy. Name of the school is Emiralem Şehit Barış Demir Primary School.
- The needs of the information technologies workshop of the school named after the benefactor in Taşköprü district of Kastamonu province was provided and financial aid was provided to the students of this school. Name of the deceased benefactor is Mustafa Sıtkı Erkek. Name of the school is Mustafa Sıtkı Erkek Vocational and Technical Anatolian High School.
- Located at İzmir province Urla district, the school named after our benefactor was supported financially for the need for 2 amps and speakers. Name of the deceased benefactor is Mehmet Necdet Özbelge. Name of the school is Jale-Necdet Özbelge Primary School.

TEV Traditional Ramadan Mevlit Event

The "Hatim and Mevlit Prayer," which has been held every year during Ramadan since May 4, 1967 for all TEV benefactors who have passed away, was held at Istanbul Dolmabahçe Bezm-i Âlem Valide Sultan Mosque on Thursday, April 13, 2023 at 2.00 p.m. with the participation of the public.

Mevlit announcement was published in the nationwide editions of Hürriyet and Sözcü newspapers on Wednesday, April 12, 2023, and announced to the public through an effective communication process on social media and other channels; TEV benefactors, their relatives and the public were invited to the mevlit.

In 2023, 71 new will and grant benefactors were brought into our TEV family with contributions of the employees at Turkish Education Foundation headquarter and branches. The moral support services rendered to esteemed benefactors throughout the year went on diligently with the devoted efforts of all employees across Türkiye. Together with the new benefactors, the number of benefactors who want to add value to TEV family during their life and keep instilling hope to young people reached 723.

The Turkish Education Foundation strives to fulfill its duties as best it can, to keep the bond of love and trust between its valuable benefactors and itself, strong and dynamic, in the spirit of unity and solidarity to contribute to Turkish national education and social development. Endless gratitude and respect are presented to all esteemed and valuable benefactors who shed light on the future of successful young people with limited financial means by supporting their education, for their contributions to TEV. The late treasured benefactors are commemorated with mercy, gratitude and respect.

BENEFACTOR RELATIONS

With a donation of TL 1 million to the Kadıköy Supporting Education Scholarship Fund, a laboratory will be built at TEV İnanç Türkeş Private High School (TEVİTÖL).

INTERVIEWS WITH OUR BENEFACTORS

I thought I could only repay my debt to my country by supporting the beautiful children of this country, so I made a donation to the Turkish Education Foundation... "TEV is a foundation that has adopted the principle of transparency and accountability. The earthquake disaster has deeply wounded us all. These beautiful children do not have access to many things. Rational education is needed today more than ever. If I am a modern Turkish woman today, I owe this to the importance Atatürk attached to scientific education. And most importantly, they contribute to the upbringing of a Kemalist youth. What more could I ask for..."

TEV Benefactor Nilgün Güresin

My donation is for the youth who follow the path of Atatürk... "I have been a member of the TEV family for 3 years. TEV treats both its benefactors and its grantees equally and fairly. All this time, they have been calling me regularly to ask about my needs, and the children we provide scholarships to always call me during the holidays, I call them my children. We come together with them on special days, all of them are brilliant people who are Kemalists. When I see them, I feel glad that I am a benefactor and member of such a valuable, Kemalist and modern foundation. I feel safe, as if I have achieved a spiritual peace. I believe that my donation is in good hands."

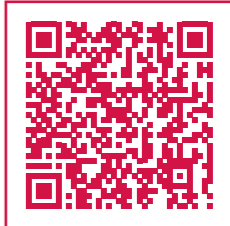

TEV Benefactor Mesure Akev

I donated my assets to the Turkish Education Foundation to continue my legacy. "I never directly correct the student by saying 'You did this', I always speak in general terms. They understand. I never discourage. After a lifetime of teaching, I donated my assets to the Turkish Education Foundation (TEV) to continue my educational legacy."

BENEFACTOR RELATIONS

Onlar ve daha binlercesi, geleceğe iz bırakan ülkemizin aydınlığa gönül vermiş insanları...

'Çocuklarımız Cumhuriyetin izinden ayrılmasın'

EMİNE SUZAN PARAN
TÜRK EĞİTİM VAKFI (TEV) BAĞIŞÇISI
Çanakçı ilçesi doğumlu. Babam subay olduğu için çok geçirdim. İlkokulu Samsun'da okudum. Bir gün Hava Yatağına benli tren istasyonuna götürüldüm. Kocaman vapurlu bir tren geldi önümüzde durdu. Vagonun kapısını açıldı. Pürlü parlı aykırakabak bir imdi. Bana bakıtı, başımı, varıştımın okladı.

Ben dedim bu kim acaba? Atatürk geleceğe diye heyecan aldığımı hatırlıyorum. Mağrera Atılımımız... O günü de, Atatürk'ün gülenini de hiç unutmadım. Kalbimde, zihnimde hâlâ o ana sikiyorum. Babama savaş sonrası gazisi olduğuna için İstiklal Madalyası vermişlerdi. Hep yılmadım taşım. Biririm ki ölkemizi zind ve karantık günlerden çıktık. Atatürk ve Cumhuriyet bizi aydınlık günlere kavuşturdu. Ben de ilk önce Cumhuriyetimin ve Cumhuriyetin geleceği için destek olmak için düşünüyordum. Babamın TEV kurmasını öğrendim. Ben Rağbetli Caddesinde oturuyordum, bir gün kütüphaneye girdim. Babamın üstünde Türk Eğitim Vakfı yazıyor. Benim de isteğimdir. Öyle sefil ve güçsüzüm ki, sağ olsunlar nezaketle ilgilenip hatıra bilgi verdiler. Sonra da bağışçı oldum. Çok mutlu-

'Gençlere yatırım yaparak vatanıma hizmet ediyorum'

İHSAN YAVUZ BALLIK
TÜRK EĞİTİM VAKFI (TEV) BAĞIŞÇISI
1928 Kastamonu doğumluyum. İlk orta ve lise eğitimini Kastamonu'da tamamladım. Ankara Üniversitesi Hukuk Fakültesi'ni bitirdim. Kastamonu'da Avukatlık ve Baro Başkanlığı yaptım, sonra Beşiktaş'ta noterliğe başladım. Türk Eğitim Vakfı'na, yine bir TEV bağışçısı olarak Mustafa Sulu İrişek vatanıyla tanıştım. Mustafa Bey, Kastamonu Taşköprü'lüdür. Taşköprü'ye, Türk Eğitim Vakfı aracılığıyla günde bir okula yaptım. daha sonra öğretmen yaptım ve okulum spor salonunu tamamladık. Okum yapıp bu hayata güzel bir hayatı yaşamak için çok çalıştım. Her gün okumaya gidiyordum. Her gün okumaya gidiyordum. Her gün okumaya gidiyordum. Her gün okumaya gidiyordum.

Ben de gençlere yatırım yaparak vatanıma hizmet ediyordum. Gençler de gün geçtikçe bu vatanı hizmet ediyorlardı diye. Sağlık ve ilme yapılan hizmet her geçen gün büyüyor. Türk Eğitim Vakfı'nın her şeyiyle dürüst ve güvenilirdir bu kurum olduğuna inanarak bu bağışçıya yapmaya karar verdim. Türk Eğitim Vakfı'nın en büyük vech, burs vermedikleri talebeleri destek ve destekleyecekler. May our children follow in the path of the Republic "TEV offers scholarships to the most deserving students, they make a careful selection. I want our children to become successful people, good civil servants, young people, and adults who will be our country's hope in the future. I wish them to follow the path of the Republic. This is the 100th anniversary of our Republic. I am almost the same age as the Republic. Our Republic is in the hands of the young people of Türkiye. Those who would like to support the youth of the Republic should reach out to the Turkish Education Foundation, no matter the amount."

I serve my country by investing in young people "I met the Koç Family and Koç Members in the 1980s while I was working as a notary official. I had worked as a notary official for Koç Holding for years. Mr. Vehbi Koç and his entire family are valuable people. I decided to make this donation based on my belief and trust in the foundation and the family, and the fact that the Turkish Education Foundation is an honest and reliable institution in every way."

Education is like the water given to a flower, the Turkish Education Foundation is a spring watering rare flowers, and we, the benefactors, are raindrops... "Supporting the Turkish Education Foundation is a tradition in our family. When it was my turn years later, I donated to the Turkish Education Foundation, and I have been honored every day since. In 1999, I became a member of the TEV family. I say family, because they have really become a family for us. For better or for worse, they are always there for us. They call me on the phone, ask about my well-being. When we fall ill, they take us to the doctor. All their employees are very dedicated. It is not a one-way foundation, it is a foundation that appreciates art and science."

TEV Benefactor Sevin Erel

Our special interview with our esteemed benefactor Sevin Erel was published in Cumhuriyet Newspaper on December 29, 2023. Scan the QR code to read the interviews.

FUNDRAISING

The scholarship funds opened at TEV provide the benefactors with the culture of being with a student throughout his/her education life and being a foundation within the foundation; It allows benefiting by keeping its name alive.

We Raise Funds for Türkiye's Future with the Support of Our Benefactors

The Turkish Education Foundation (TEV) has been successfully fulfilling its responsibility to support its grantees throughout their educational lives. The most important factor behind this success is TEV's assessment of donation revenues with sustainable models and its commitment to transparency principles regarding resource utilization. TEV clearly and openly discloses how donations are used, and this transparency increases the trust and support for the Foundation each day.

As a foundation that invests in the future of Türkiye and strives for equal opportunities in education, TEV continues its efforts to mobilize the support of its esteemed benefactors for Turkish education and to ensure that Türkiye assumes its rightful place in the information age.

The scholarship funds opened at TEV provide the benefactors with the culture of being with a student throughout his/her education life and being a foundation within the foundation; It allows benefiting by keeping its name alive. With long-term planning, thousands of scholarship funds, which protect the principal and can promote students for years by providing scholarship support with the income of the fund, are managed and reported to relevant stakeholders.

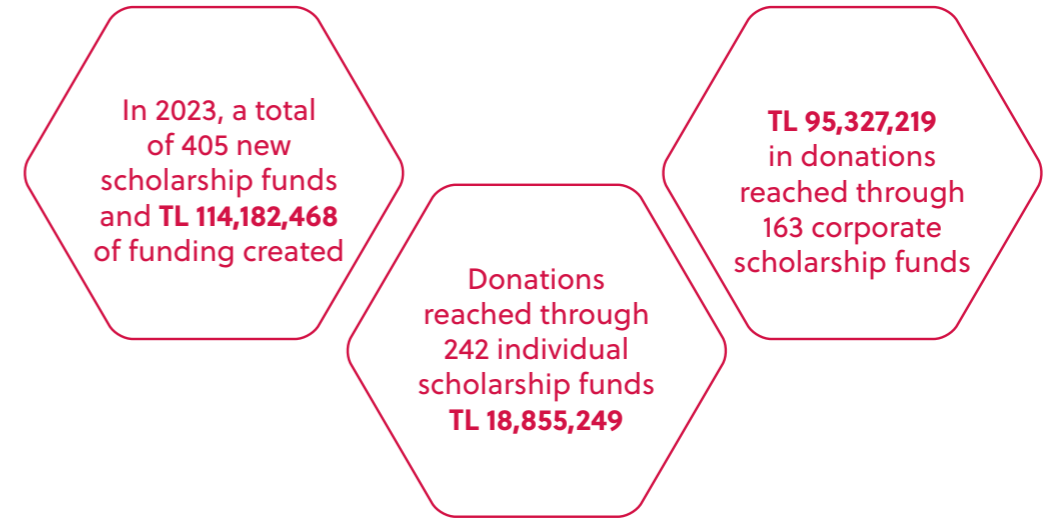

TEV obtains funds with a lot of projects, organizations and works throughout the year. Fundraising policy of the Foundation;

- To stand behind the successful students with limited financial means in their education and career journeys based on the vision and mission of the Foundation. To maintain and increase the individual and institutional donations,
- To motivate individual and institutional benefactors to take action in support of the foundation's strategies. To raise the Foundation's access to donations by developing innovative models, and to contribute to its financial sustainability,
- To develop sustainable relations with individual benefactors and institutional supporters.

In 2023, TEV carried out the following activities to further develop its resources:

- Various projects were launched with the support of individual and institutional benefactors in order to provide scholarship support to successful students with limited financial means, and to develop their competencies.

- Organizations donated through special day events and happy day cards, and institutional funds were raised.
- Social responsibility projects were implemented and sustainable resources were created by developing domestic and international corporate collaborations.
- We continued to develop new methods to encourage individual donations and tried to create new models for individuals so that they could support TEV through scholarship funds, real estate donations, and funeral donations.
- We made a concerted effort to bring together organizations and individuals at sports events, encouraging them to spread the word about donating to TEV.

DONATION ADMISSION AND DONATION PROJECTS

- Donation Projects working area: individual/corporate/social responsibility projects/sports activities/overseas collaborations
- To develop social responsibility projects with the private sector, to create individual and institutional funds, to bring individuals and institutions together in sports activities, to obtain donations in return for special day cards and to leverage overseas collaborations.

COLLABORATIONS WITH INSTITUTIONS

TEV keeps creating quality projects which achieve their goals and have a strong social impact, by collaborating with many corporate companies and brands. Such projects are shaped both in line with the periodical needs and through extensive research conducted by the Foundation. In particular, it is considered that the collaborations made with the institutions are social responsibility projects. It is globally observed that other than success criteria, the role of needs in scholarships increase in time. TEV supporters want not only to give financial support to successful students, but also to provide versatile benefits to those who are successful and in need.

İş Portföy

EDU-İş Portföy, established in cooperation with the Turkish Education Foundation (TEV), provides educational scholarships to university students by transferring half of the fund management fee obtained from the TEV Education Support Hedge Fund to TEV.

PepsiCo

Under the Future's Science Women Academy project, PepsiCo offers scholarships to 200 female university students majoring in STEM.

Coca Cola Türkiye

Through the Proud Faces Project, Coca-Cola Türkiye offers scholarships to 100 female students in vocational high schools.

Zorlu PSM

My First Theater, My First Concert project, implemented with the motto "The Stage for Us All," enables young people to participate in culture and arts activities.

Healthy Living and VeNatura Scholarship Fund

Healthy Living and VeNatura Scholarship Fund was established by Nurçin and Okan Çağlar, the founders of We Live Healthy community, in cooperation with Vefa İlaç within the social responsibility movement.

With the scholarship fund created, it continues to grow rapidly by providing scholarship support to 50 undergraduate students majoring in Medicine, Nutrition and Dietetics, and Pharmacy in 2019/2020, 75 in 2020/2021, 150 in 2021/2022, and 150 in 2022/2023. With a second protocol, Nurçin and Okan Çağlar established the Healthy Living Scholarship Fund in 2021. Thus, it is ensured that donations are made to this fund every month from the revenues of its stakeholders, who provide special discounts to Healthy Living followers. The scholarship fund continued to provide scholarships to 40 undergraduate students majoring in Agriculture, Food Engineering, Nutrition and Dietetics, Dentistry, and Biochemistry.

FUNDRAISING

Through events organized for the 100th anniversary of the Republic, funds were raised for TEV and scholarships were awarded to students.

- **Hyundai**
Hyundai granted scholarships to 400 students in total: 200 high school students and 200 university students. In addition to scholarships, Hyundai also includes a certain number of students in internship programs and continues its support in the new semester.
- **İpekyol Group**
İpekyol Group Scholarship Fund offers education scholarships, professional development opportunities, and internships for 100 female high school and university students.
- **Garanti BBVA**
As part of the Birthday Donation Project, the Bank celebrated its customers' birthdays with kindness in cooperation with TEV. Launched in 2021, the project was continued in 2023, supporting undergraduate grantees on their educational journey.
- **Allianz Sigorta**
In-house gifts and certificates of appreciation were transformed into goodwill through the foundation. Within the scope of the Happy Day activities, the "Don't Give Up On School-2023 Scholarship Fund" was supported to contribute to the education of many students affected by disasters.
- **Yapı Kredi Private Banking**
Yapı Kredi Private Banking provided scholarship support to a total of 48 students, including 21 high-merit scholarships, 23 undergraduate students, and 4 postgraduate students in the arts.
- **Yapı ve Kredi Bankası**
With Yapı Kredi Afife Theater Awards Scholarship Fund, a total of 18 students (17 undergraduate and 1 postgraduate student) studying in theater and performing arts departments were supported.
- **Gürok**
With the "Rıza Güral Scholarship Fund" established in cooperation with Gürok Holding, 23 vocational technical high school students and 11 undergraduate students were supported.
- **Bosch Car Service**
The Bosch Car Service Scholarship Fund supported 100 vocational high school students, who study in the fields of motor vehicles and automotive, and held training sessions for them to promote their career journeys.
- **Teleperformance**
The cooperation with the Teleperformance Scholarship Fund continued to provide scholarship support to 50 vocational high school students. In addition to scholarship support, mentoring and internship support are granted.

- **Aksigorta**
Aksigorta Scholarship Fund provides support to students studying finance.
- **Givin.co**
Revenue from the sale of brand new and labeled products and second-hand excess items in good condition from the Givin.co website or Givin goodwill stores is donated to support the education of young girls. The revenue from purchases at Givin is transformed into educational scholarships for young girls through TEV.

INTERNATIONAL COLLABORATIONS

- **Lacoste Foundation:** With the project developed in collaboration with Yeşim Group in 2022 and accepted by the Lacoste Foundation, scholarship support was provided to students in 2023.
- **Alstom Foundation:** With the project submitted to the Alstom Foundation in 2022 and implemented in 2023, scholarship support was provided to female students in the field of engineering. In addition to scholarship support, TEV provided signalization and railway training for the students of Uğuz Tarık Demirağ Vocational High School and provided new equipment to the school's laboratory to be used in classes.

Duferco SA: The Swiss company supports the construction of Ankara Yenimahalle Girls' Dormitory with their donation.

Bank of America: With its support in 2023, TEV scholarship recipients were provided with English courses and financial literacy training.

Mapfre Foundation: Provided scholarship support to 75 university students in 2023.

OUR SPECIAL PROJECTS FOR THE 100TH ANNIVERSARY OF OUR REPUBLIC

- **Pegasus Airlines**
Provides scholarships to 1,000 female university students on the 100th anniversary of the Republic, the highest number of scholarships awarded at one time in TEV's history.
- **TÜSİAD**
It has organized a special celebration event for the 100th anniversary of our Republic. Sertab Erener and her orchestra, pianist Tuluğ Tırpan, Civilizations Choir of Antakya, and Kaan Baysal also performed at the event, which raised funds for TEV and provided scholarships to students.

- **Fenerbahçe Sports Club**
As part of the 100th anniversary of the Republic, the Republic Forever Scholarship Fund was established to support students from 81 provinces of Türkiye. Fenerbahçe Sports Club has also raised social awareness by announcing this step to the general public.

- **Selamlıque**
They will donate the income generated from the cup set specially designed for the 100th anniversary of the Republic to TEV.

- **GKC Partners**
Provided scholarship support to 100 students for the 100th anniversary of the Republic.

- **TSKB**
Provided university scholarships to 100 students on the 100th anniversary of the Republic.

- **Insurance Association of Türkiye**
On the 100th anniversary of the Republic, the association provides four-year scholarship support to 100 university students affected by the disaster.

- **INDEX**
By establishing the 100th Anniversary of the Republic Scholarship Fund, it provided scholarship support to students affected by the earthquake.

- **Haremlique Istanbul**
Under the "100th Year 100 Scholarships" project, it provides scholarship support to high school and university students.

OUR DISASTER FOCUSED PROJECTS

- **Continuing Education with FOX**
The earthquake disaster that hit Türkiye on February 6 affected 1 out of every 5 students in elementary education, leaving hundreds of thousands of students at risk of quitting their education. TEV launched the "Continue Education" campaign with FOX so that the education, dreams, and stories of our students affected by the disaster would not be interrupted.
- **Şahika Ercümen**
World diving record holder national athlete Şahika Ercümen set a world record by diving to 106 meters in Yayladağı, Hatay to support 100 female students on the 100th anniversary of our Republic.
- **Dr. Nejat F. Eczacıbaşı Foundation**
Provides scholarship support to a total of 500 students, including 30 students who have achieved outstanding success in the university exam, 70 successful students, and 400 female university students affected by the earthquake.

FUNDRAISING

TEV has organized joint projects with many institutions and provided resources so that the education, dreams, and stories of our students affected by the disaster are not interrupted.

- Yapı ve Kredi Bankası**
 Implementing a variety of collaborations with Yapı Kredi Bank, TEV also provided scholarship support to 250 university students affected by the earthquake by participating in Yapı Kredi Step, the Sustainable Choice Program launched by the bank with the motto "One choice changes a lot," and Yapı Kredi Mobile.
- ING Holland**
 It provides scholarships to 700 female university students affected by the earthquake.
- Citibank**
 The donation provides 4-year scholarships to 82 students affected by the disaster and who are university students.
- Flormar**
 Under the All Colors of the Future 2023 Scholarship Fund, it provides scholarship support to female university students and students affected by the earthquake.
- Atlas Dergisi**
 It donated the income from the earthquake special issue to the Don't Give Up On School 2023 Scholarship Fund, providing scholarship support to students affected by the disaster.
- Yemeksepeti**
 It provided vouchers for 1,300 students affected by the disaster and additional support for 300 students.
- Schneider Electric Türkiye**
 It provides scholarship support to 105 female students affected by the earthquake.
- Mastercard**
 In cooperation with TEV, donations are collected through POS devices placed in front of the cash register at the retail points of partner brands and scholarship support is provided to students who are amputees due to the earthquake.
- Coca-Cola Türkiye**
 As part of the My Sister project, 300 disaster-affected university students received scholarships and mentoring support.
- Nescafé**
 Until the end of the semester, it provided emergency support to hundreds of university students who lost their parents and were affected by the earthquake in the first degree.
- Nestlé Türkiye**
 It provided scholarship support to hundreds of earthquake-affected students at the primary education level until the end of the semester.
- Kelebek Mobilya**
 On March 8, International Women's Day, the "Butterfly Scholarship Fund for Our Girls" was established to support 200 female university students affected by the disaster to create a Butterfly Effect.
- Trendyol**
 With the Heart to Heart Scholarship Fund, it provided support to university students affected by the disaster for their entire education life.
- QNB Finansbank**
 With the Small Hands Big Dreams Scholarship Fund, it launched a project to support a total of 250 students (100 primary school students and 150 undergraduate students) affected by the disaster for the duration of their education.
- Koton**
 On March 8, International Women's Day, the "One Woman Can Change the World - Impact and Solidarity Scholarship Fund" was established to provide scholarship support to 200 university students affected by the disaster.
- Colgate**
 "A Future to Make You Smile" Scholarship Fund was established with Colgate products sold in Migros stores. This fund provides scholarship support to students affected by the earthquake.
- Multinet Up**
 It established the Meal Assistance Fund, providing additional support to 1,000 students affected by the disaster.
- Biletino**
 Biletino has donated a part of the service fee from ticket revenues to the Biletino Education Scholarship Fund established at TEV in order to support students affected by the disaster.
- Merck İlaç**
 With its 25th anniversary scholarship fund, Merck İlaç will support 25 students affected by the disaster and who are majoring in medicine throughout their education.
- Carl Kühne**
 In addition to providing emergency support to disaster-affected students by donating to the "Don't Give up on School" 2023 scholarship fund, TEV also established a scholarship fund and provided scholarships to 20 primary school and 30 university students affected by the disaster.
- ATÜ Turizm**
 ATÜ supported the education of students affected by the disaster through the "Our Youth Is Our Future Scholarship Fund."
- ZÜCDER Turkish Housewares Association**
 Through the scholarship fund established in our Foundation, it provided scholarship support to university students affected by the disaster.
- Galata Business Angels**
 Through With the scholarship fund established in our Foundation, it provides scholarship support to 3 primary school and 5 university students affected by the disaster throughout their education life.
- KOÇ Yönder**
 In addition to its long-standing scholarship fund, Koç-Yönder established the Koç-Yönder 2023 Scholarship Fund to grant scholarships to university students affected by the disaster.
- Advertisers Association**
 Through the scholarship fund established in our Foundation, the association offered support to 10 Communications Faculty students who were affected by the disaster throughout their education life and also brought a group of students together with industry professionals under the mentoring project.
- Siemens and Siemens Healthineers**
 Through Caring Hands, Siemens donated to the "Don't Give Up On School 2023 Scholarship Fund" and provided emergency support to 100 students affected by the disaster.
- Legrand**
 Through the scholarship fund established in our Foundation, Legrand donated to the "Don't Give Up On School 2023 Scholarship Fund" and provided scholarship support to university students affected by the disaster.
- Netsmart**
 By donating to the 2023 Don't Give Up On School Scholarship Fund, the company provided scholarships to university students affected by the disaster.
- Cargill**
 Launched in cooperation with TEV in Cargill's 60th year in Türkiye, the Women Leaders of Tomorrow Program contributes to strengthening the socioeconomic position of women by providing them with the necessary knowledge and skills. To mitigate the effects of the earthquake, Cargill donated to the Don't Give Up On School 2023 Scholarship Fund and provided scholarship support to university students affected by the disaster.
- Ticket Restaurant Edenred**
 By donating to the 2023 Don't Give Up On School Scholarship Fund, the company provided scholarships to university students affected by the disaster.
- Bain & Company Istanbul**
 Through the scholarship fund established by our Foundation, the company also included its employees in the project and provided scholarship support to university students affected by the disaster.
- Antiochia**
 Through the scholarship fund established in our Foundation, Antiochia granted scholarships to primary school students affected by the disaster.
- Nova University**
 It donated the revenue generated from the concert to the Don't Give Up On School 2023 scholarship fund and provided emergency support to students affected by the disaster.

FUNDRAISING

Friends of Education is used as a symbol of gratitude for the support provided to grantees through TEV.

TEV CORPORATE PARTNER

TEV Corporate Partner is used as a symbol of gratitude for the support provided to grantees through TEV. In addition to providing financial support to grantees, TEV Corporate Partner Badge is awarded to esteemed organizations that offer students opportunities such as mentoring, internships, job opportunities, technical training, and social activities to help them improve their education journey.

As the sign of the support given by the institutional benefactors, a digital badge is presented to the institutional benefactors who stand by TEV for the education of young people with the motto "Don't Give Up On School."

Where is it used?

The institutions granted TEV Corporate Partner can publish the exclusively designed logo on their website and add it to their corporate e-mail signatures.

For which criteria are the badges awarded?

- Scholarship Support
- Additional Support (Transportation, Food, Technology etc.)
- Mentorship Support
- Education Support
- Internship Support
- Employment Support to TEV Graduates

What are the pros of holding a digital badge for institutions?

They are able to raise awareness about equal opportunity in education by announcing their support for the Turkish Education Foundation, which has worked for 56 years to achieve the said opportunity.

How can a digital badge be obtained?

At least one of the support types should be performed.

Where to apply to get a digital badge?

To get the digital badge, you can send an e-mail to bagisprojeleri@tev.org.tr or call +90 212 318 68 59 for information.

MEMBERSHIPS AND COOPERATIONS

International

Benevity: Benevity is a donation platform that allows individuals and institutions to donate to different NGOs. It offers a great platform to convey the individual donations and the contribution of the institution cooperated, to the NGO donated. It is possible to promote the projects of TEV offered on Benevity, as well as donating to TEV on the whole. As a member of this platform, TEV regularly gets the donations it raised from abroad, via Benevity.

Global Giving: Global Giving is a donation platform where individuals make donations to NGOs around the world specialized in different fields. NGOs can become a member of this platform to introduce their projects and collect funds for them. TEV promotes some of its scholarship campaigns on Global Giving and gets the donations it collected for these campaigns, through Global Giving.

Turkish Philanthropy Fund: Turkish Philanthropy Funds (TPF) is a US-based foundation that bolsters up social investments for Turkish and Turkish-American societies. Together with its benefactors, TPF provides funds to projects of the NGOs in Türkiye with whom it collaborates. Likewise, TEV acquaints its projects on TPF web page and raises funds for its projects by means of TPF.

CAF America: CAF America is a global grantmaking organization that assists companies, foundations, and individuals in their donation process while mediating the process, and facilitating the granting process to minimize the risks and administrative burden in the delivery of the funds to the beneficiary. Some of the funds attained from abroad are supplied via CAF America. Grants will be received from Cargill, PepsiCo Foundation, and Bank of America through CAF America to grant scholarships and provide education to students via these grants.

SCHOLARSHIP FUNDS

METU Scholarship Fund

METU Scholarship Fund was established in 2009 by the Foundation's volunteer Arif Aygündüz and has been TEV's largest fund and the most net value-added project for the last 8 years. In 14 years, a total of 3,615 scholarship opportunities have been created and 585 Middle East Technical University (METU) students have been granted scholarships for the 2023-2024 academic year. Since 2014, 108 of the 392 graduates have supported young people as benefactors, demonstrating that they are the guarantors of the fund's future. 33.5% of regular monthly benefactors in 34 countries around the world have supported the Fund for a period of 10 years or more.

METU Scholarship Fund also provides mentor support from its alumni and coaching support from internationally certified coaches.

In 2023, 267 grantees benefited from these supports. Each semester, a four-day alumni- grantee meeting is organized at the Ankara campus, and the constructive relationships established at these events contribute to grantees finding internships and jobs.

TEV-Corona Heroes Memorial Scholarship Fund

With the "Corona Heroes Memorial Scholarship Fund" created in 2020, the children of healthcare workers who lost their lives in the fight against coronavirus, and the children of individuals who died from the virus during the corona period throughout their education life, and those who suffered financial damage due to the pandemic were supported. Backed up by our corporate and individual benefactors, scholarship support continues to be provided at primary, high school, undergraduate, and postgraduate and doctorate levels.

Don't Give up on School Scholarship Fund

Every year, thousands of students consider dropping out of school, because they cannot meet their most basic needs. It was set out with the "Don't Give Up On School" slogan to make students return to school. Established in 2021 with the backing of esteemed benefactors, who believe in the power of education, "Don't Give Up On School Scholarship Fund" continues to promote more students every year.

FUNDRAISING

Following the earthquake that affected Kahramanmaraş and nearby provinces, the “Don’t Give up on Education 2023 Scholarship Fund” was established to support our university students affected by the disaster and to provide scholarship support throughout their education.

Don’t Give Up On School 2023 Scholarship Fund

Following the earthquake that affected Kahramanmaraş and nearby provinces, it was established to support our university students affected by the disaster and to provide scholarship support throughout their education life.

On the Road to School Scholarship Fund

Following the earthquake that affected Kahramanmaraş and nearby provinces, the fund was established to provide scholarships to children affected by the disaster, from primary education to university graduation.

Self-Reliant and Confident Girls of the Future Scholarship Fund

In order to emphasize the importance of equal opportunity in education, to ensure that young women have access to education, and to provide scholarship support to female students, the “Self-Reliant and Confident Girls of the Future Scholarship Fund” was established in 2021. Thanks to this fund, contribution is made to the future of numerous students.

Food Allowance Scholarship Fund

In addition to the education scholarship given to TEV scholars, food scholarship support is also provided to meet their food needs.

Transportation Assistance Scholarship Fund

In addition to the education scholarship given to TEV scholars, transportation scholarship support continues to be provided so they can meet their transportation needs.

Stationery/Book Assistance Scholarship Fund

In addition to the education scholarship given to TEV scholars, stationery/book scholarship support continues to be provided so that they can meet their stationery/book needs.

Social Activity Scholarship Fund

In addition to the educational scholarship given to TEV scholars, social activity scholarship support continues to be provided for them to carry out their social activities.

TEV-Natural Disaster Relief Fund of Students

To help the victims of disasters, the “Let’s Heal with Education Scholarship Fund” was established in 2021 in order to provide scholarship support to young people affected by material or moral victimization following disasters.

SPORTS ACTIVITIES

Adım Adım İyilik Peşinde Koş Platformu (Run for Good Step by Step Platform)

Adım Adım İyilik Peşinde Koş Platform is an organization that brings NGOs and individual & institutional volunteers together. This year, the Turkish Education Foundation raised TL 7,103,064 by attending 9 sports activities together with Adım Adım and reaching 12,772 benefactors with 1,875 volunteer sportspeople.

Runtalya Marathon

With the 2023 Antalya Marathon, the Foundation’s 181 volunteer athletes collected TL 1,843,933 in donations through this project, which aims to reach out to students affected by disasters with the motto “Don’t Give Up On School.”

In 2023, TEV takes part in the Adım Adım İyilik Peşinde Koş Platform

TEV has the most volunteers - **1,929** volunteer sports people

TEV is reaching the highest number of benefactors - **12,772** benefactors

TEV is achieving the highest donation amount – **TL 8,117,160**

TEV is reaching the highest number of benefactors (**11,909** - Istanbul Marathon)

Maratonizmizir

With the virtual run organized in Izmir as part of the “Don’t Give Up On School” project, the Foundation’s 17 volunteer athletes donated TL 147,912 and provided scholarship support to students affected by the disaster.

The 45th Istanbul Marathon

A total of 76 organizations ran for TEV in the 2023 Istanbul Marathon. 6,537 people made donations to 1,175 runners who started campaigns for the Foundation, reaching a donation of TL 3,647,465 and providing 1-year scholarship support to 162 students. TEV became the 3rd highest fund-raiser among the NGOs participating in the Istanbul Marathon.

OTHER EVENTS

We participated in these marathons with volunteer athletes in the Adım Adım İyilik Peşinde Koş Platform, respectively: İznik Ultra Marathon, Istanbul Half Marathon, Runkara Half Marathon, Eker I Run Bursa Run and Büyükkada Half Marathon.

Apart from Adım Adım, volunteer athletes participated in Adana January 5th Liberation Half Marathon, Rome Marathon, Athens Half Marathon, Saint-Joseph High School, Belgrade Run, Under Armour Bodrum Half Marathon and Gökova Half Marathon.

Collaboration with the Turkish Rowing Federation

During the Turkish Sea Rowing Championships held in Izmir between October 8-10, TL 51,375 was donated by 15 volunteer athletes of the Foundation through a campaign launched by the Turkish Rowing Federation.

FUNDRAISING

The use of donations instead of wreaths began with the death announcement for the funeral of Vehbi Koç's sister, Hüsniye Aktar which was published on January 1, 1972.

On a business trip to Sweden in 1968, Vehbi Koç saw several large and beautiful buildings outside Stockholm and asked what they were. He learned that they are special housing for alone and low-income elders. Wreath donations were used to construct and maintain these housings. Vehbi Koç rose interest and he kept examining the subject.

In 1917, 91 wreaths were sent to the funeral of the famous Swedish architecture Ludwig Heidi who died at the age of 91. His daughter Alma Heidi thought that the money spent on wreaths could be directed to a social aid. Therefore, she established a foundation in 1921: the Flower Foundation. In funerals, flowers were replaced by a metal wreath symbolizing the wreath donation. In the course of time, the custom of donating to the Flower Foundation became common.

He aspired to direct the funeral wreaths, which constitute 5% of flower consumption, to the wreath fund to be established at TEV.

The use of donations instead of wreaths began with the death announcement for the funeral of Vehbi Koç's sister, Hüsniye Aktar which was published on January 1, 1972. This first wreath donation corresponded to TL 20,000. A total wreath donations of TL 325,000 were raised in that year.

TEV WREATHES

TEV Wreathes make up a significant way of fundraising started in 1972.

Vehbi Koç talked about this subject in 1971 as follows:

"... As a result of studies and research we've done to provide scholarships to more young people, we've understood that we can provide 250-300 young people with additional scholarships through the flower and wreath money paid for weddings, engagements, celebrations, openings, and funerals in Istanbul."

Main source of these words was an ongoing practice in Sweden.

DONATION ADMISSION

In 2023, the field operation processes started to be monitored with the tablet application and an innovative step in digitalization was taken. The follow-up processes of funeral and happy day ceremonies were carried out entirely on tablets, and wreath images, receipt entries and information entries of relatives of the deceased were transferred to the digital platform.

The workload of the call center and operations team was reduced by eliminating communication via e-mail, WhatsApp, SMS, and telephone.

On the office side, the efficiency of work flows and processes was increased by eliminating manual processes with the control of receipts received from the field and visual delivery of wreaths.

Manual practices related to collection processes (collection at the address, in-person delivery of the collection card to the benefactors) have been eliminated, allowing for tablet-based collection and instant communication with the benefactors via e-mail.

As of September 1, 2023, the cash collection process was eliminated and the process of receiving cash donations at the address was terminated.

Our Donation Admission Activities in 2023

Total amount of donations obtained through wreath field operation:
TL 41,696,836

Total donations obtained through condolence card operation:
TL 1,720,949

Total donations obtained through happy day field operation:
TL 10,011,933

Total donations obtained through happy day card operation:
TL 7,046,085

The amount of donations raised as Other Donations (unconditional donations) within the foundation:
TL 17,721,701

CORPORATE COMMUNICATIONS

In 2023, TEV continued its communication activities both in traditional and digital media in order to increase its recognition and visibility among audiences.

Traditional Press

In 2023, TEV reached 368,963,072 people across printed, online and visual media and achieved an advertising equivalent value of TL 34,962,285 through its communication efforts to increase its recognition and visibility among audiences.

Social Media

As a result of the communication on TEV's digital channels, the Foundation's reach increased by 46% from 64,035,526 in 2022 to 93,745,899 in 2023.

2023 TEV Press Coverage

Awards

MediaCat Felis Ödülleri

We won a total of 2 Felis and 2 Achievement awards at the **MediaCat Felis Awards**, including 2 Felis and 1 Achievement award for our "Whose Backpack Is This?" project and 1 Achievement award for our "May They Study, May They be the Future of the Republic" project.

Brandverse Awards

We won a total of 8 awards at the **Brandverse Awards**, including 1 Grand Prix and 1 Gold award for our "Volume Up" project and 2 Gold, 2 Silver, and 2 Bronze awards for our "Whose Backpack Is This?" project.

Effie Awards

We won a total of 2 Gold Effies at the **Effie Awards** with our "Volume Up" project.

Whose Backpack Is This? in Bursa

TEV's award-winning public awareness project "Whose Backpack Is This?" was exhibited at Bursa Kent Meydanı Shopping Mall, hosted by TEV Bursa Branch, after its first exhibition in Istanbul, and continued to raise awareness of young people who had to abandon their education and dreams due to not being able to meet their basic needs.

May 19 Commemoration of Atatürk, Youth and Sports Day

On the 104th anniversary of the beginning of our fight for independence, ChatGPT, an artificial intelligence application, was asked the question "What would you say if you had to advise young people?" and quotations from Atatürk's Address to the Turkish Youth were shared as answers. With Atatürk's Address to the Turkish Youth performed by the grantees of the Foundation, we commemorated our Great Leader Mustafa Kemal Atatürk with gratitude and celebrated our Youth and Sports Day.

CORPORATE COMMUNICATIONS

In the campaign launched with the call "May They Study, May They be the Future of the Republic" by our youth on the 100th anniversary of our Republic, it has been emphasized that it is only possible for the Republic to enter the next century even stronger through education.

OCTOBER 29TH, REPUBLIC DAY

May They Study, May They Be the Future of the Republic

TEV is diligently working alongside the young people who will perpetuate the Republic in the light of the principles of our Great Leader Atatürk, to carry our country towards a brighter future on the 100th anniversary of our Republic. In the campaign launched with the call "May They Study, May They be the Future of the Republic" by our youth on the 100th anniversary of our Republic, it has been emphasized that it is only possible for the Republic to enter the next century even stronger through education.

The "May They Study, May They be the Future of the Republic" film, prepared specially for the 100th anniversary of our Republic, has received over 21 million views and more than 12,000 interactions on the Foundation's social media platforms.

Scan the QR code to access the project video "May They Study, May They Be the Future of the Republic."

September 20 100th Anniversary of the Republic Celebration

The 100th anniversary of our Republic was celebrated together with the esteemed benefactors and grantees of the Foundation at an event hosted by TEV Chairman of the Board of Trustees Ömer M. Koç and Chairman of the Board Prof. Dr. Mehmet Şükrü Tekbaş on September 20th.

Zeki Müren - 27th Death Anniversary

On September 24th, the 27th anniversary of the passing of our esteemed benefactor Zeki Müren, his most valuable artifacts, his students, were posted on TEV's social media accounts.

Ferdi Özbeğin - 82nd Birthday

The Foundation's esteemed benefactor Ferdi Özbeğin and the eternal beauty of his art were commemorated with a clip prepared with artificial intelligence for his 82nd birthday and by saying #welovedyousomuch.

You can access the project video "Ferdi Özbeğin's 82nd Birthday" by scanning the QR code.

CORPORATE COMMUNICATIONS

Launched in 2023 for the first time, the Describe TEV Painting Contest asked scholarship recipients to describe the Foundation through their eyes and to draw education-oriented, optimistic paintings.

Describe TEV Painting Contest

Launched in 2023 for the first time, the Describe TEV Painting Contest asked scholarship recipients to describe the Foundation through their eyes and to draw education-oriented, optimistic paintings. Once again, the artworks revealed that TEV can be best explained by students, and that they can do so in the most creative ways. Top 5 students in the competition:

CENGİZ ERGÜLEÇ

MELİSA HARPUTLUGİL

ENFAL MERYEM ULUÇINAR

BUSE ÇETİNKAYA

MUNICIPALITIES SUPPORTING EDUCATION

While the total donations collected by the "Municipalities Supporting Education" projects in 2023 amounted to TL 4,043,231, the donations collected in the 10 different "Municipalities Supporting Education" projects implemented so far reached TL 4,478,939.

Initiated by the Anatolian Side Benefactor Relations Directorate, the collaborative projects between municipalities and TEV, which started in Kadıköy and Adalar and became traditional over time, continued to thrive in the provinces where TEV branches are located outside Istanbul in 2023.

Throughout the period, with the support of the residents of provinces and districts within the scope of the project, scholarship support continued to be provided to university students residing or studying there. While the total donations collected by the "Municipalities Supporting Education" projects in 2023 amounted to TL 4,043,231, the donations collected in the 10 different "Municipalities Supporting Education" projects implemented so far reached TL 4,478,939.

Within the scope of the "Municipalities Supporting Education," cooperation was carried out in Kadıköy, Adalar, Tepebaşı and Balıkesir in 2022, while Yenimahalle, Ankara Metropolitan, Odunpazarı, Nilüfer, Kırklareli, and Bodrum projects were implemented in 2023.

BRANCH OFFICES

Operating in 13 different provinces, TEV branch offices plan and carry out activities that accord with the purpose of the foundation, such as fund-raising, benefactor relations, education and scholarship activities, in the provinces under their responsibility where they are located, with the coordination of the Head Office.

LEGAL

Legal Counsel's Office endeavors to provide legal counsel and opinions to the units and branches of the Foundation as necessary, ensuring compliance with legal regulations in all areas of the Foundation's activities.

Legal Counsel's Office: It is responsible for ensuring the legal background of all transactions of the Turkish Education Foundation to ensure that all activities it performs to reach the goals described in the authenticated contract of the Foundation, comply with the existing laws and the in-house legislation, and for bringing solutions to legal disputes within the framework of the applicable laws. In this regard, it represents the Foundation in all judicial authorities, arbitrators, execution offices and notaries, as well as in mediation negotiations.

The Legal Counsel's Office prioritizes preventive legal advice and measures over defensive legal action and to create an environment to sustain this principle within the entire Foundation including all departments and branch offices, as well as ensuring the legal compliance of the activities. In this sense, necessary opinions and reports on legal measures are presented without filing a lawsuit, and it is aimed to eliminate any potential problems against the Foundation before they arise.

Within the scope of the said activities, the case and execution files brought in favor and against the Foundation across the country in 2023 were tracked by the Legal Counsel's Office. The total number of cases which were brought in favor and against our Foundation in 2023 and were handed on and followed up from previous years is 727. As of 2023, 211 of these cases were concluded. 193 of them were in our favor and 18 of them against us.

71 of the settled cases are related to the opening of the will and the delivery of the estate. In consequence of these cases, as of 2023, 30 real estate amounting to TL 108,248,600 were registered in the name of the Foundation, and cash assets corresponding to TL 16,934,850.05 were transferred to the Foundation account.

Moreover, copyright permits and contracts of the benefactors and testators, who are copyright holders, were signed. The copyrights and the rights protected by the professional associations were followed up and the relevant revenues were transferred to the Foundation.

Besides, all law and legislation changes that came into force in 2019 were closely followed and the works with other units of the Foundation continued to make necessary arrangements, changes and transactions within the entire foundation, especially within the framework of the provisions of the "Law on the Protection of Personal Data."

Within the mediation and settlement system introduced with the Law amendment made in 2018, the mediation process is also carried out for the disputes to which the Foundation is a party.

Additionally, rental readjustment lawsuits have been initiated in order to adapt the rentals to the current date's market rates, as these fees constitute a significant portion of the Foundation's income. Necessary measures have been taken in order to protect the financial interests of the Foundation via enacting the lessor's rights extended under the Code of Obligations, which resulted in peaceful settlements with a significant portion of the lessees without initiating a time and resource consuming litigation procedure.

In this context, the necessary legal process were initiated in order to ensure the collection of unpaid rents, enforcement proceedings were made against the indebted tenants who refused to pay the rent, and the collection of rental income and the eviction of the problematic tenants were ensured. Of 648 execution files which were initiated in 2023 or date back to previous years, enforcement of 84 files were ensured and a total of TL 7,839,388.59 was collected.

Contracts drawn up regarding all kinds of projects and services to which the Foundation is a party are first checked by the Legal Counsel's Office to prevent possible problems in the future, and approved by us in a controlled way. Special contracts were prepared by the Counsel's Office. The projects and contracts to which the Foundation is a party were concluded without dispute.

On the other hand, interviews were made with the candidates, who want to make a will to the Foundation through testamentary disposition or donate by way of inter vivos transfer, based on their demands. Detailed legal information about the legal definition and results of the savings they want to make was provided. Legal support was granted to the benefactors, who wanted to make a will, in order to ensure that their wills are made in accordance with their wishes. Donation protocols were prepared in line with the aims and wishes of the benefactors who wanted to make donations. As a result of these meetings, a total of 65 people made a will and 6 people made donations in 2023.

In addition, legal processes for the appointment of a guardian and/or financial advisor to ensure the legal protection of those who lost their legal capacity or became unable to protect their rights and interests, by providing the necessary assistance and support to solve the legal problems that benefactors and testators face in their daily lives were initiated and followed up.

HUMAN RESOURCES

Based on the idea of positioning human resources to generate and utilize knowledge, TEV works tirelessly to support successful students with limited financial means who aspire to continue their education.

Human Resources that Is Open to Change and Guiding Development

Core vision of the Turkish Education Foundation is primarily to enable human resources to produce and use knowledge. Within this framework, Human Resources Unit was established in 2010. TEV provides service to both its benefactors and grantees with its 256 employees at the Head Office, 13 Branches, 3 Girls' Dormitories and TEVİTÖL. Human Resources aims to promote the setting of the policies that support the Foundation's values, mission, and vision, and to optimize human resources management in line with the Foundation's goals.

Based on the idea of positioning human resources to generate and utilize knowledge, TEV works tirelessly to support successful students with limited financial means who aspire to continue their education and to contribute to their education life by standing behind the students through various scholarships, while promoting the education system by building schools, dormitories, education centers, and libraries.

The Foundation aims to be an institution that regards employee satisfaction, manages processes with a focus on continuous improvement and mutual open communication, strives to support its employees in developing their skills and potential, cares about the needs and expectations of employees and creates a fair working environment for them.

Activities went on in 2023 to make the organizational structure and business models more plain, agile and efficient.

Recruitment

In 2023, the Turkish Education Foundation, with its 13 Branches, 3 Girls' Dormitories, Head Office, and TEV İnanç Türkeş Private High School, employed an average of 256 employees.

In 2023, a total of 13 definite and 37 indefinite new employees joined the Foundation at TEV Headquarters, branches, and dormitories, 5 under the "First Opportunity Program" and 8 with fixed-term employment contracts. 11 of these employees quit their positions at the end of their fixed-term employment contracts, 10 due to retirement and 22 for various reasons.

In 2023, 48% of the employees hired were women, while 52% were men. As of the end of 2023, 56% of the management team were women, while 44% were men.

Evaluation processes of all candidates who apply for job advertisements are performed in an objective and effective manner. Although the recruitment process may vary by position, the stages of personality inventory, case study, proficiency exam, and reference check are always applied.

To positively strengthen the recruitment experience and its effect on employee loyalty during the adaptation process, several practices are carried out on the first day: giving out a TEV Welcome kit, making an internal welcome announcement across the foundation and organizing acquaintance meetings. A general orientation program is also organized for employees who have just joined the TEV Family, in which all units explain their internal workings and practices, in order to get to know the institution better and speed up the adaptation process to the institution.

We Bolster up New Graduate Recruitment

As part of the First Opportunity Project launched by Esas Sosyal to help new graduates have their first work experience, employment of young people in 5 positions was supported and their recruitment processes were completed in 2023. Thus, thanks to the First Opportunity Program, both the employment of new graduates and the business processes of the units were backed up.

Employee Satisfaction Survey

As part of human resources development and improvement activities, the second Employee Satisfaction Survey, which was conducted for the first time in the history of the Foundation in 2022, was carried out again in December 2023, through the BAREM Consultancy firm.

An assessment survey was conducted to measure the satisfaction and loyalty levels of employees, evaluating areas such as corporate culture and values, management practices, and communication environment. This contributed to identifying the strengths and areas for improvement in TEV's corporate policies and practices, as well as creating roadmaps for addressing areas requiring more improvement.

Employee Satisfaction Workshops, Values Workshop

A total of 14 workshops were conducted, 6 of which were online and 8 were face-to-face, where the results of the 2022 Employee Satisfaction Survey were evaluated together with employees across the Foundation. Approximately 42 hours were spent on these workshops, and joint roadmaps were drawn up with the employees. Within these workshops, for the first time in the history of the Foundation, a value measurement application was implemented, and common corporate values were determined with the participation of all employees.

Employee Performance Reviews and Exit Interviews

To monitor the Foundation's organizational development, maintain its "well-being" and take the necessary actions within the appropriate time frame when needed, the initial six-month employee evaluation interviews, which started in 2022, also continued in 2023. During approximately 15 hours of meetings, experience sharing sessions were conducted with the employees, resulting in outputs that nourish the corporate culture of the Foundation.

In exit interviews systematically conducted since 2021, approximately 13 hours of meetings were held throughout the year 2023. Human Resources has completed the necessary reporting for identifying TEV's areas for improvement through exit interviews supported by exit surveys and has transformed action plans into various implementations throughout the year.

2023 TEV First Opportunity Participants

Training

Within the framework of the executive training event, a 2-day "Branch Managers Development Program" was organized in May, specifically designed for Branch Presidents, focusing on alignment, establishing a management approach that speaks the common language, working together, and increasing performance and productivity.

Launched at the end of 2022, the Leader Development Program continued in 2023, and TEV's executive staff received a total of 24 hours of leadership development training per person, with follow-up sessions of approximately 28 hours each, every 6 months throughout the program.

Employees have been provided with opportunities to participate in various external training programs to enable them to keep up with current technical practices according to the needs of their units and contribute to their professional development.

Internal Communication and Motivation

In 2023, in moderation of the Human Resources unit, Common Ground meetings were held in the last week of every month, and a process, in which the information of all Foundation employees' was synchronized and they were aware of the Foundation's agenda, was implemented.

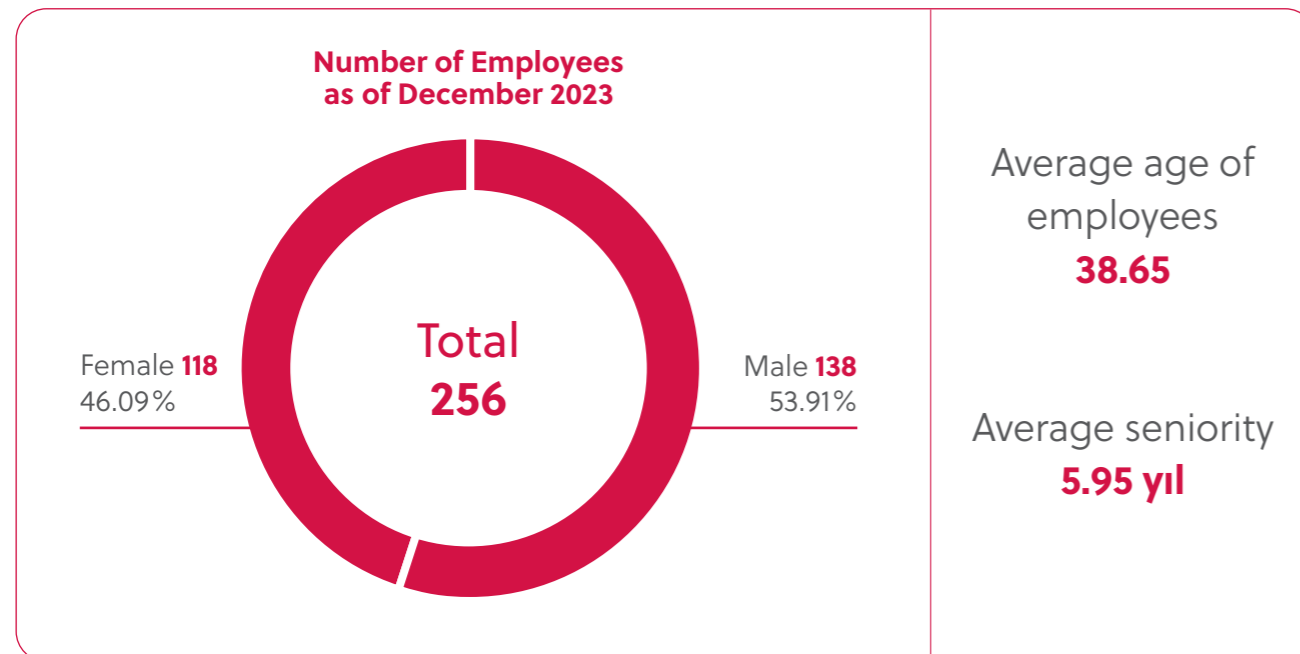

The new TEV portal, which was launched during the year, continues to share current legislation and information with all employees through the new portal.

Efforts to document all business processes and accelerate digitalization have also been intensified throughout the year.

In 2023, motivational activity budgets were established for all TEV employees, and all employees across the Foundation were supported to participate in various activities planned with their managers.

HUMAN RESOURCES

In 2023, the Turkish Education Foundation, with its 13 Branches, 3 Girls' Dormitories, Head Office, and TEV İnanç Türkeş Private High School, employed an average of 256 employees.

INFORMATION TECHNOLOGIES

The Information Technology Unit continues its efforts by adding various innovations to the system to implement pioneering practices, increase efficiency, digitize labor-intensive tasks, and further elevate the success graph.

These locations include the TEV Head Office, the Anatolian Side Benefactor Relations Department, 13 branch offices, the Turkish Education Foundation İnanç Türkeş Private High School (TEVİTÖL), women's dormitories in İzmir, Trabzon and Ankara, and the Garring schools in Istanbul, Sakarya and Kırşehir. In addition, it occasionally provides support to the many schools built by TEV and transferred to the Ministry of National Education.

The unit is responsible for the online connections (remote area network), Internet connections, security systems, and entire e-mail traffic of TEV branches. It also provides continuous support for more than 50 servers and more than 400 computers/consumables, switchboards, call centers, websites, operating software, and all kinds of electronic products in use.

In 2023, it included many innovations in the system to implement pioneering practices that will increase our efficiency, digitize labor-intensive work, and raise our success rate even higher.

Activities in 2023

System Developments

- Project and process management phases were moved to the Jira application by Atlassian, the most widely used tool in the world. In this way, it has been possible to follow the workflow processes and respond to the requests of users, problems, and errors with agile methodologies. Time analysis studies were carried out on unit-based spent times and situations, and efficient business and process management was ensured.
- A hybrid work tracking system was set up using Power Apps technologies, and the entire foundation was able to monitor the work locations of employees.
- By integrating the card access system with the hybrid working application, all working modes, including the office environment, were reported.
- To contribute to corporate identity applications, central e-mail signature integration was implemented.
- As part of the efforts to provide computer support for grantees affected by the disaster, a new screen was developed on AX to track all computers donated to the foundation after they were received. By printing barcodes on the PCs and registering them in the system, all applications that students may need were controlled. Actions have been taken and improvements have been made for the functions that have problems. Screen improvements were made to monitor delivery processes; 1,000 computers were controlled within 2 months, deficiencies were resolved and they were made available for the use of students.
- The new portal infrastructure was created and put into operation.
- Wireless network infrastructure was renewed in the Head Office offices. All APs were renewed and made Wi-Fi 6 supported. Wireless internet speed has been increased by about 4 times.
- An announcement was added to the switchboard structure within the scope of Personal Data Protection Law compliance studies.
- New reports and applications were added to the system for more optimized use of call center processes.
- The TEV websites were improved and upgraded, and an online membership system was introduced.
- The website of TEVİTÖL has been renewed.

INFORMATION TECHNOLOGIES

Due to the earthquake disaster, the IT equipment and camera system were installed in the administration office and teachers' room of the container school built in cooperation with Eczacıbaşı in Adıyaman.

- Microsites were established for earthquake relief campaigns, contributing to fund raising.
- The sound and announcement system at Ümraniye TEV Zahide Zehra Garring Secondary School was renewed and IT equipment was installed for management.
- Microsoft System Center Operations Manager system has been installed and integrated into the infrastructure, enabling the monitoring of critical server services and generating alarms in case of potential issues. This allows for early action to be taken in case of any potential issues.
- Due to the earthquake disaster, the IT equipment and camera system were installed in the administration office and teachers' room of the container school built in cooperation with Eczacıbaşı in Adıyaman.

Security Activities

- With the installation and integration of Microsoft SCCM; controlled, automatic distribution of Windows operating system security updates to computers and the ability to install them on computers remotely from central screens were ensured.
- As part of the Personal Data Protection Law compliance efforts, a data classification and labeling system has been implemented; files containing data have been tagged, and users have been informed about this matter.
- To elevate information security to a higher level, starting with the branches, devices that do

- not contain security software and that pose information security risks were disconnected from TEV servers.
- As part of information security activities, phishing emails focused on social engineering have been sent at different times throughout the year to create user awareness. Results have been analyzed, and trainings have been provided along with user-focused measures. Reminders have been added to visual areas such as screen savers to raise awareness of information security.
 - Server backup work was carried out under the disaster recovery policy.
 - Multi-factor authentication was introduced in Office 365 applications.
 - Penetration test has been performed. No critical or high-priority vulnerabilities were identified in the Foundation's systems as a result of the test.

TBY (TEV Grantees Journey) Activities

- Following the February 6 earthquakes, a special disaster scholarship application form was prepared. Through this form, 94,243 applications were received in one week.
- A Candidate Tracking Platform has been prepared where scholarship candidates can track the entire process of their applications online and instantly. A fully integrated application system was established by creating a personalized area where candidates can track the entire scholarship application process on the website.

- Elimination and ranking criteria were applied according to the information given by the scholarship candidate in the application form, and the Technical Evaluation system, which ranks all students based on school/faculty, was formed.
- Barcoded documents that can be obtained via E-Government were controlled and compared with the information on the application form.
- The International Scholarship Application Form has been renewed in line with the needs.
- As part of the digitization of labor-intensive works, the students uploaded academic records and student certificates which can be obtained with a barcode from the E-government, to the system. The uploaded documents were read and processed by the system using OCR, RPA, and AI technologies. Using OCR, RPA, and AI technologies, adjustments have been made to the transcript reading system, increasing the number of readable transcripts to around 75% and the success rate to approximately 95%.
- With the Interview Platform, scholarship interviews are conducted on an online platform and the entire process can be monitored transparently. In 2023, improvements continued and the platform was integrated with the website and ERP system.

ERP Activities

As the first foundation in Türkiye to migrate all of its processes to ERP, TEV continued to improve its ERP systems in 2023. Throughout 2023, a total of 1,204 requests related to TEV ERP systems were answered. 134 strategic business, 15 revenue loss-preventing, and 41 additional revenue-generating developments were made.

Digital Transformation Efforts

The second phase of the TEV Grantees Journey Project was completed with the below steps.

Renewal of the Education Scholarship Application Form:

Several arrangements were made to enable students to access the education scholarship application form more quickly, to make the questions in the form more explanatory, so that students do not have difficulty answering, and to ensure better analysis of the results by adjusting the scoring system.

Reading Activities of Transcripts and Student Certificates: Within the digitization of labor-intensive works, students' transcripts and certificates were downloaded via e-government and uploaded to the relevant field on the TEV website. Processing of the transcripts uploaded to the website was ensured, using OCR, RPA, and AI technologies. Thus, printing and shipping costs were reduced and resources were utilized effectively.

E-Government Document

Verification System: The documents, which are requested from the students invited for the interview can be obtained from the e-government with barcodes, are read by the system with OCR, RPA and AI technologies and checked with the information given by the scholarship candidate in the application form. Lastly, it is shown in the interview system whether or not these document are consistent.

Interview Platform: An interview platform system was generated to ensure that scholarship interviews are made online and through a single system, the results can be recorded and transparently seen by everyone, and the documents uploaded by the students and the status of the candidates are followed up. An interview appointment system was established to work in integration with this system. The interview time can be determined on the system and sent to the commission members automatically through the system.

Applicant Tracking Platform:

Applicant Tracking Platform where the candidate students who applied for scholarship can instantly follow the whole process on the web site of TEV, was prepared. The platform also runs in full integration with the Interview Platform and TEV ERP system.

Technical Evaluation: After the scholarship applications were completed, all applications were pooled in a single platform. Screening and ranking criteria were run based on the information given by the scholarship candidate in the application form.

Digital Archive

Data loss is minimized and a significant cost advantage is obtained with the digital archive transition, which provides simultaneous, uninterrupted, and fast access to the information and documents produced or obtained as part of the activities of the Foundation, and to all documents, such as the documents, the original of which must be kept.

Our Awards

At the Information Technology Summit '23, organized with the theme of Enigma, the "TEV Grantees Journey" project participated in the Technology Captains competition, where the best of the sector took part and more than 122 projects competed in 7 different categories.

TEV was the only non-governmental organization in the competition, which was voted by the public with more than 20,000 participants and the results were determined by the jury's decision. TEV won the first prize in the "Social Responsibility Project of the Year" category and the third prize in the "Digital Transformation Project of the Year" category.

PROJECTS FOR A BRIGHT FUTURE

TEV Youth Platform Obigenç was shaped with the pro bono support of McKinsey & Company based on the vision of “understanding the problems of young people better and making more extensive contributions to their lives.”

TEV Memory to be Renewed with the Digital Archive Project

Digital Archive Project was started in December 2022 in order to classify and reduce all documents and files in the archive of the Turkish Education Foundation in accordance with archiving standards, to transfer important documents to digital media in an indexable manner with technology products, to guide them and keep them regularly by barcoding. With this project, which plays a key role in digital transformation of the foundation, archive and document management, data backup and recovery, safe storage and safe destruction processes were implemented with the Iron Mountain solution partnership.

The sustainability-oriented continuation phase of the project, which will be carried out in 2024, will continue to address the new storage and backup needs of the half-century-old archive of TEV, which is integrated with the Archive Management System (AYS).

With the Digital Archive Project, over one million pages of documents were indexed and digitized, thereby enabling TEV’s archive to be both protected with greater security and secured against force majeure such as natural disasters. The project outputs will also make it possible to access and search the digitized documents remotely when needed. Thanks to the New AMS, it will be ensured that necessary integrations are implemented faster and more optimally if there is a need to stratify the TEV archives with a Document Management System (DMS) in the future.

TEV Youth Platform Obigenç

Obigenç was shaped with the pro bono support of McKinsey & Company based on the vision of understanding the problems of young people better and making more extensive contributions to their lives.

With this project, TEV went beyond the development of a “mobile application” that can be used by all young people, especially TEV grantees, and aims to be the first platform that comes to mind when it comes to applying for scholarships and to provide both personal development support and financial support to millions of students who download the application.

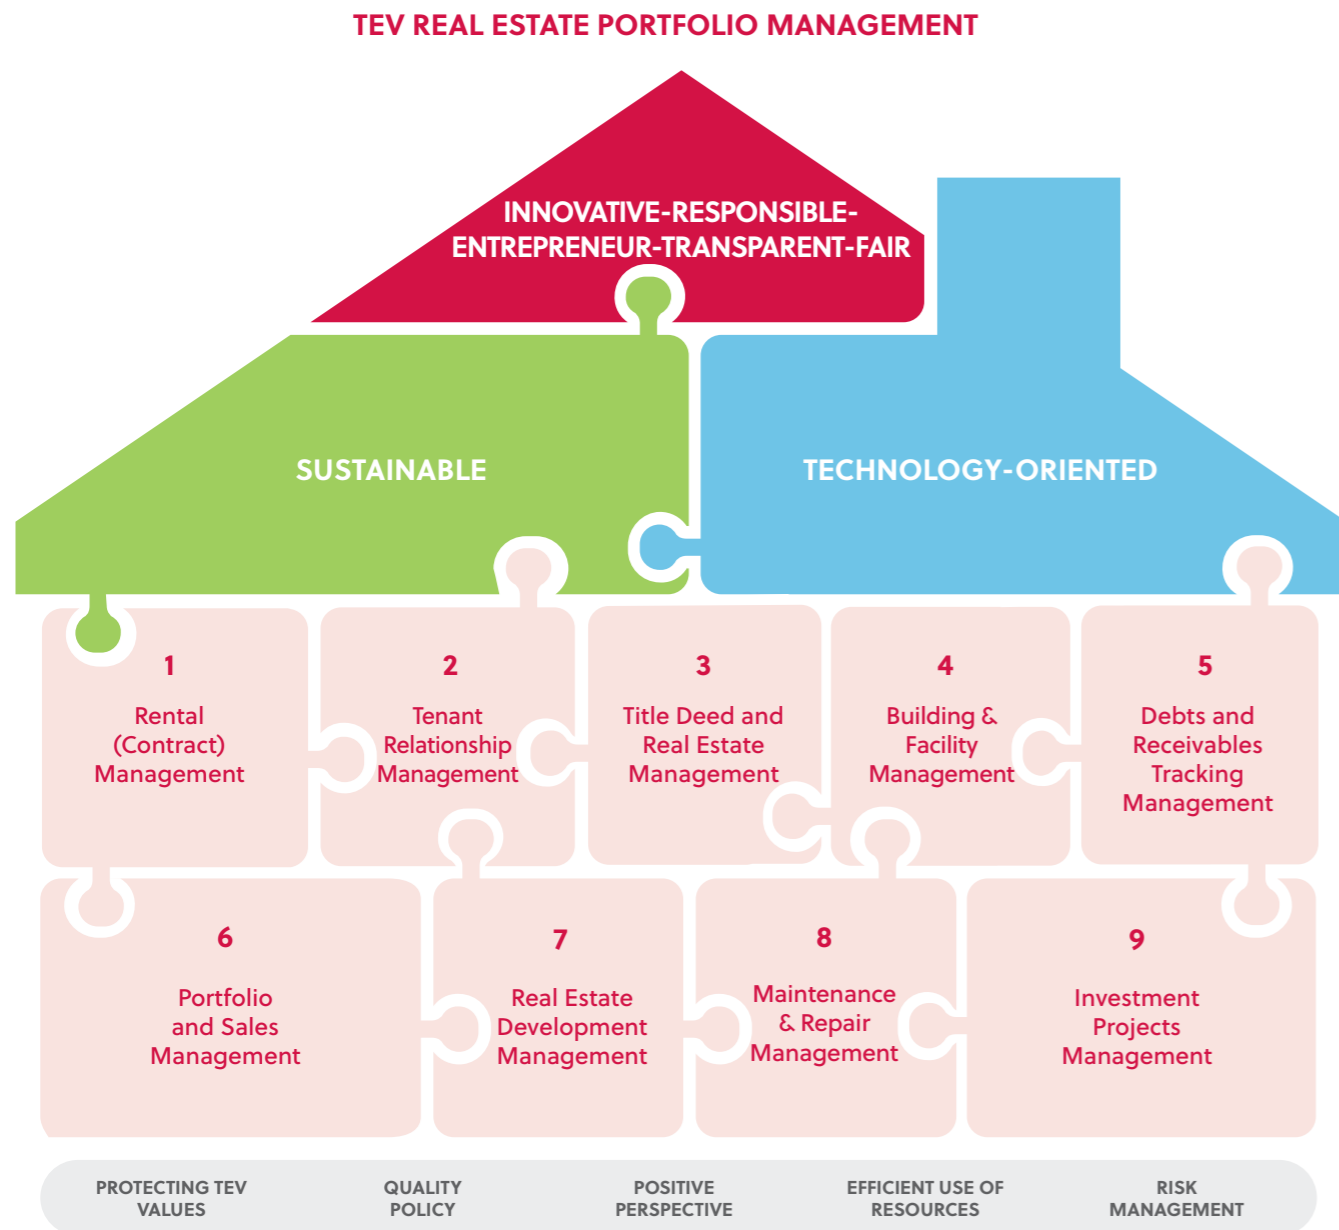

The main value at Obigenç is defined as enabling both TEV and companies to understand the needs of young people better and support them in various areas while allowing students to access all the support their financial and emotional needs throughout their university journey from a single platform. First of all, it is aimed to set out as a scholarship platform and to make students benefit from the platform through various sponsorships. At the final stage, in addition to financial support, the aim is to transform the platform into a digital platform where young people can interact with each other and create networks, reach various career and educational opportunities, and meet their needs.

REAL ESTATE PORTFOLIO MANAGEMENT

TEV ensures that the movable and immovable assets donated by philanthropists are turned into educational support for our youth, and acts with the awareness of bearing a great responsibility.

TEV acts as an intermediary for making use of the movable and immovable assets bequeathed by philanthropists, for education in Türkiye. Honored to function as an intermediary, TEV acts with the awareness of bearing a great responsibility, and is proud of the placement of a great confidence in the Foundation.

Within the framework of the 2019-2023 Real Estate Portfolio Management Strategy Plan approved by the Board of Trustees in 2020 and the 2023-2025 Real Estate Investment Strategy approved by the Board of Directors, the **Real Estate Management Team** has continued to work with the aim of increasing real estate revenues, increasing real estate efficiency by minimizing expenses, and providing resources for the Foundation's purposes with regular income from real estate.

In line with this aim, market values were monitored so that real estate did not lose value, and the real estate were

Independent Real Estate Appraisal

For the "sales, rental, urban transformation and project development" transactions performed by the Real Estate Management unit within the framework of legal arrangements and internal regulations, services of the independent real estate appraisal firms licensed by the CMB are received in the analysis of rental value, sales value and investment. Real Estate Portfolio value is based on the valuation reports conducted in 2023, CBRT Housing Index rates and market analysis researches.

ETHICAL VALUES

Real estate processes are monitored under nine main titles within the frame of legal arrangement, the Foundation's internal regulations and ethical values. In this context, rent increases were made in 2023 within the framework of the CPI 12-month rent increases announced by the Turkish Statistical Institute (TURKSTAT), while the legal limit of 25% for residential units was respected as of July. As per the Code of Obligations, a rent increase was applied to our tenants, whose market increase period has come, based on the current value of rents determined by the appraisal companies with CMB license.

REAL ESTATE PORTFOLIO MANAGEMENT

One of TEV's income source is the income obtained from real estate.

REAL ESTATE PORTFOLIO MANAGEMENT

7

MANAGEMENT MODEL

Real Estate Development Management

GOAL

To create maximum income

The projects that aim to buy (invest in) / transform the properties with high rental income, using the investment fund created within the efficiency strategy.

In 26 different buildings, negotiations with the condominium owners of our real estates, monitoring of urban transformation processes, including construction contract processes and post-contract construction processes, and evaluation studies were carried out for the construction of dormitories on lands to be provided by allocation in different provinces.

8

MANAGEMENT MODEL

Maintenance & Repair Management

GOAL

To complete works in a thorough and timely manner as part of the sustainable management plan

CONSTRUCTION DEPARTMENT

Solid structures for the future

To maintain the value of our foundation's properties and the rental income they earn, a total of 141 renovation, maintenance, and repair works, including 92 maintenance and repair, 14 renovations and 35 risk management works were carried out in 2023.

Renovation, maintenance and repair works were performed to increase the number of classrooms in the buildings located in TEVİTÖL. Furthermore, solar panels were built on the roof of the Heat Center and integrated into the system to reduce the heating expenses.

Lastly, the works for the building, which was donated by the TEV benefactor in Kocaeli for the purpose of moving the Kocaeli Branch, renovating the building and providing training to grantees, were completed and the building was opened.

9

MANAGEMENT MODEL

Construction Project Management

GOAL

To ensure that projects are completed within the framework of budget, time and quality

TEV Aziziye Apartment Building Urban Transformation Project:

Within the framework of the urban transformation of Aziziye Apartment Building, which is owned by the Foundation and located on Hüsrev Gerede Street in Hüsrev Gerede Street, Şişli District, Istanbul Province, as it is a building at risk, the tender for project management and project design has been completed, project work has started, the license has been obtained and planning has been made to start construction in 2023.

TEV, Tuna-Orhan Nail İzgi Anatolian High School Project: Upon the request of a benefactor to build a school in Eskişehir on behalf of his/her parents, a protocol was signed with the Ministry of National Education and Project Management and Project Design Tenders were held for the construction of a school with 24 classrooms in Odunpazarı District. It is planned to complete the construction by the end of 2024 and transfer it to the Ministry of National Education.

Workshop Equipment In Eskişehir TOBB Science And Art Center: With the aim of fulfilling the will of a TEV benefactor, a protocol was signed with the Ministry of National Education to provide the equipment of nine workshops within TOBB Science and Art Center in Eskişehir Province Tepebaşı District, and to give the name of the benefactor to the workshops, it is planned to be opened in the 2024-2025 academic year.

Ankara Yenimahalle TEV Girls' Dormitory Project: Within the framework of the protocol made with Ankara Yenimahalle Municipality, project studies have been completed for the construction of a 324-person Girls' Dormitory on the allocated land, and the contractor tender has been initiated for the construction. The dormitory construction is planned to be completed by 2025, and it is scheduled to be opened for student accommodation in June 2025.

School Projects Implemented in the Disaster Region

Eczacıbaşı TEV Primary School:

Within the framework of the protocol signed with the Directorate of National Education with the donation of TEV benefactor Eczacıbaşı, a 378 m² primary school with 4 classrooms and 1 kindergarten class was completed in Tekpınar village of Adıyaman province. The school was transferred to the Ministry of National Education and was opened in October.

Hyundai TEV Kindergarten:

Within the framework of a protocol between Hyundai company and the Ministry of National Education, construction works have commenced for a 4-classroom kindergarten in Doğanşehir district of Malatya province. It is planned to be handed over to the Ministry of National Education for opening and starting education in the second half of the 2024 academic year.

PwC TEV Primary School:

Within the framework of the protocol signed with the National Education Ministry and with the donation of the TEV benefactor PwC, tenders have been conducted for the construction of a 12-classroom primary school in Saylak village of Kırkhan district, Hatay province. It is planned to inaugurate the school during the first half of the 2024-2025 academic year.

FINANCIAL AFFAIRS AND FINANCIAL INFORMATION

Being Open and Transparent

The Financial and Administrative Affairs Group Department carries out its activities under the headings of;

- Administrative Affairs and Purchasing
- Fund management
- Budget and strategic planning
- Financial reporting
- Administrative affairs and purchasing

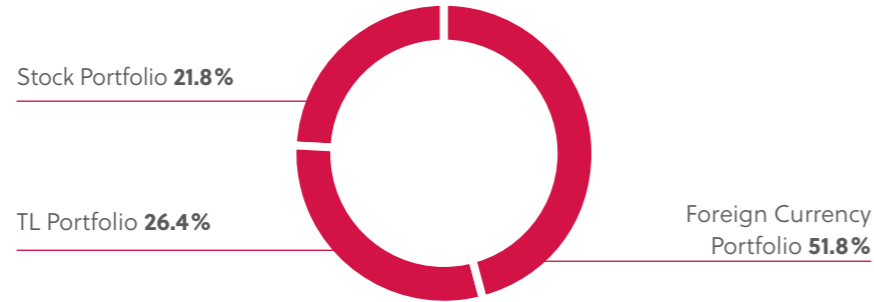

Since the day it was founded, the Turkish Education Foundation operated under the supervision of the General Directorate of Foundations in accordance with the provisions of the "Repealed Foundations Law and Article 31 and the continuation of the Law on Foundations No. 5737, which came into force on 27.02.2008." In line with the principles of our foundation, our records and reports, which we keep meticulously and sensitively for all transactions, in accordance with the legislation, were prepared and presented to senior management for 2023 as it is done every year.

Efforts were made to ensure that all organs of the foundation work in full harmony in terms of budget management and financial discipline, and to implement common principles and regulations.

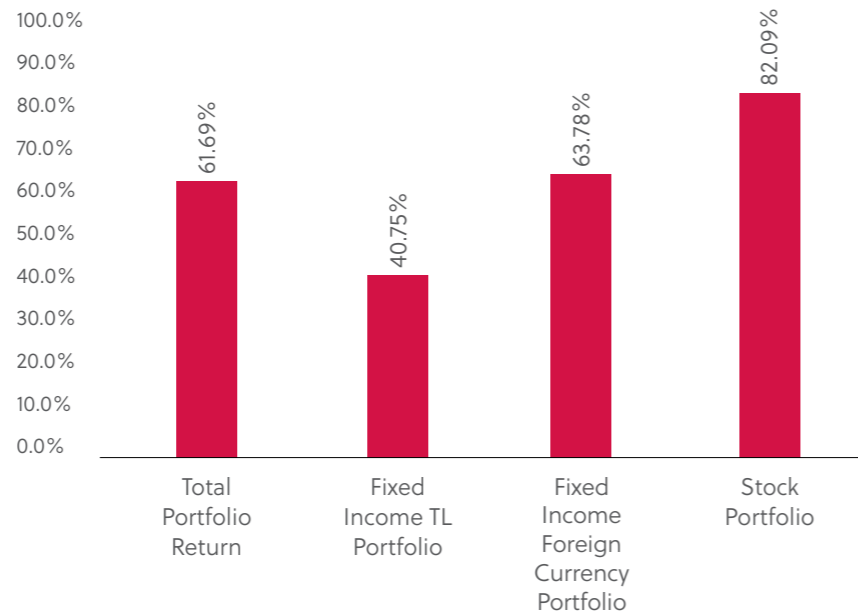

The financial obligations of our foundation and our commitments to our stakeholders have been realized by effectively following up with the support of the Enterprise Resource Planning (ERP) infrastructure. Auditors selected by the Board of Trustees made internal audit in the foundation in 2023. An independent auditing company also audited 2023 financial statements of the foundation.

The goal of increasing the value of financial assets by managing them in accordance with the principles of the Foundation was reached within the framework of controllable risks and with the optimum return target.

DISTRIBUTION RATES OF THE FINANCIAL PORTFOLIO

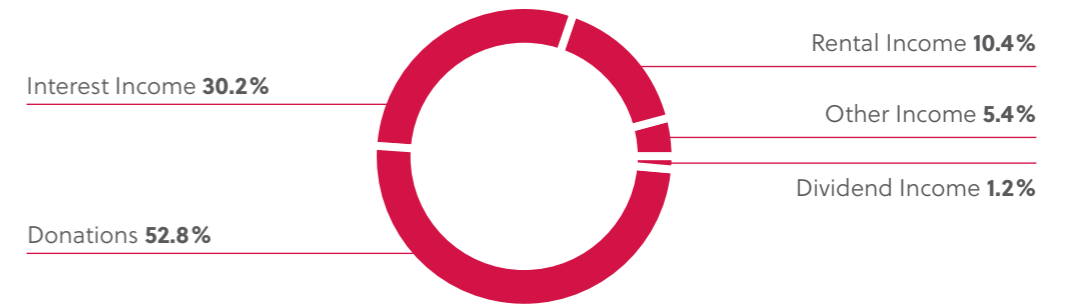

NET INCOME RATES OF THE PORTFOLIO

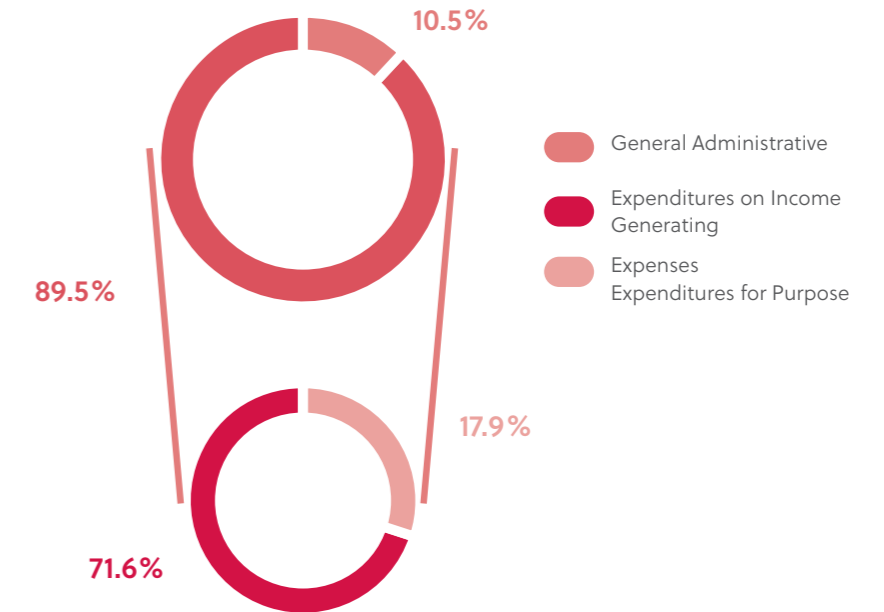

- The annual return of the portfolio, at 61.69%, has fallen 308 basis points below the December 2023 CPI figure of 64.77%. Real income of TL and foreign currency assets and stocks was 2,402 basis points below, 99 basis points below and 1,732 basis points above the inflation, respectively.
- TL assets yielded a return of 40.75% which is 1,242 basis points above the benchmark index return.
- Foreign currency assets yielded a return of 63.78% which is 610 basis points above the benchmark index return.
- Stock portfolio yielded a return of 82.09% which is 4,717 basis points above the benchmark index return.
- The portfolio weighted average return is 1,672 basis points above the benchmark index value.

The income and expense distribution of the Turkish Education Foundation according to the final budget of 2023 is summarized in the graphs below.

2023 INCOME DISTRIBUTION

2023 EXPENSE DISTRIBUTION

As part of the improvement of internal control activities, the Administrative Affairs and Procurement department has completed the process of conducting procurement transactions through work flow systems and creating digital archives.

As of October 2022, the administrative tasks have been transferred from the Human Resources department to the Financial Affairs department, and the unit continues its activities as the Financial and Administrative Affairs Group Directorate. As of 2023, procurement activities of all General Directorate units, except for the Information Technology and Construction Units, have been taken over. Support was also provided for purchases of economic enterprises and branches above a certain amount.

The supplier pool was expanded in order to reduce Foundation costs by obtaining competitive prices. Furthermore, supplier satisfaction surveys have been conducted to measure the performance of existing suppliers.

AUDIT AND RISK MANAGEMENT

Internal Audit Activities

In addition to the audit activities carried out by independent audit institutions every year, all activities of the Foundation are audited by the Internal Audit Department in line with the legislation and internal strategies, policies, principles and goals. Through the Audit Committee, the Internal Audit Department, which reports directly to the Board of Directors, strengthens the organization's ability to create, protect, and sustain value by providing risk-based, reasonable, and objective assurance, advice, insights, and foresight to the Board of Directors.

Risk Management Activities

Obligation to manage the risks identified during the activities of the Foundation from a broad perspective and with an understanding of sustainability is the primary subject which sets the steps of corporate risk management. With the works performed in a holistic template, taking into account the relations of risks with each other, a strategic and proactive model of the processes within the risk management is embraced.

Detected risks are first defined. Their occurrence probability and their impact are analyzed and scored. Action plans are established to mitigate the effects of identified risks and related risks are managed within the framework of risk tolerance limits approved by the Board of Directors. With the internal audit activities, effectiveness and sufficiency of the risks defined in the risk inventory are periodically tested through the first-level control processes.

Potential risks are tracked in four main categories and action is taken.

Risk Category	Risk Definition	Action Plan
Strategic	Stakeholder Relations Risk	Surveys, promotion activities, staff training
	Project Risk	Protocol processes, management of the benefactors' requests
	Corporate Governance Risk	Full implementation of the corporate governance principles
	Process Risk	Reporting process, communication management, effective procedure and process management
Operational	System Risk	System maintenance, periodical review
	Legislative Risk	Internal control, monitoring of legislations, audit, and surveillance
	Reputation Risk	Crisis action plan, strong social media interaction, content control, corporate governance practices
	Data Leak Risk	Technical preventive measures, staff training
	Accident and Security Risk	Occupational health and safety practices, insurance policies and guarantees
	Misconduct Risk	Personnel awareness training, establishment of ethical rules, technical and administrative measures
External	Staff Competence and Performance Risk	Employee satisfaction surveys, creation of a feedback culture, talent management
	Natural Disaster and Emergency Risk	Emergency action plan, follow-up of the business continuity process, OHS reports
	Supplier Risk	Effective market monitoring, correct supplier selection, implementation of contracts and protocols
Financial	Epidemic Disease Risk	Staff health checks, making of emergency action plan, remote working procedure
	Market Risk	Effective asset management, periodical portfolio analysis
	Liquidity Risk	Target audience analysis, effective management of liquid assets

**Summarized Financial Information Prepared from the Audited Financial Statements
(Originally Issued in Turkish)**

To the Board of Türk Eğitim Vakfı;

We have audited the financial statements of Türk Eğitim Vakfı ("Foundation") for the year ended 31 December 2023, from which the summarized financial information was derived, in accordance with International Standards on Auditing. In our report dated 5 March 2023, we expressed an unqualified opinion on those financial statements.

For a better understanding of the Foundation's financial position and the results of its operations for the period and of the scope of our audit, the accompanying summarized financial statements should be read in conjunction with the financial statements from which the summarized financial statements were derived and our audit report thereon.

The accompanying summarized financial information is not a complete set of financial statements of the Foundation in accordance with International Financial Reporting Standards and is not intended to present fairly, in all material respects, the financial position of the Foundation as of 31 December 2023, and of its financial performance, and its cash flows for the year then ended in accordance with International Financial Reporting Standards.
